You are about to purchase a product that is not simple and may be difficult to understand.

What is this product?

Type This product is a non-UCITS investment fund. It isintended for retail investors and is structured asa Retail Investor AIF (Alternative Investment Fund) . The minimum initial subscription and subsequent subscription amounts are set at €10,000. The product's return depends on the performance of the underlying assets. Capital is at risk in respect of this product.

Objectives

Product objectives The Fund aims to achieve long-term growth on your investment. The Fund seeks to achieve its investment objective by investing on a diversified basis in the equity and equity related securities of small capitalisation companies and in open-ended collective investment schemes with similar exposure and with no particular focus on any one country or industry sector.

Investment approach The Fund may invest in equities and equity related securities, including common and preferred shares, rights and warrants of Small Companies. Small capitalisation companies are companies having a market capitalisation at the time of purchase of less than €5 billion (“Small Companies”). Equity securities of Small Companies have greater volatility of returns given the size of the companies, their business risk and asset concentration of the Fund.

Investment policy The Fund seeks to achieve its investment objective by investing on a diversified basis in the equity and equity related securities of small capitalisation companies and in open-ended collective investment schemes with similar exposure and with no particular focus on any one country or industry sector.

Benchmark There is no benchmark.

Redemption policy Redemptions are as follows: the first business day in each month and the first business day in each calendar month.

Distribution policy There is no current intention to declare any dividend in respect of the Fund.

Sustainability policy The manager integrates sustainability risk management throughout the investment lifecycle however, the fund does not pursue a sustainability mandate. For further information, please see www.greshamhouse.ie.

What are the risks and what could I get in return?

Risk Indicator

1	2	3	4	**5**	6	7

Lower risk — Higher risk

The risk indicator assumes you keep the product for 5 Years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.
We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact the capacity to pay you.
See prospectus for full suite of applicable risks.
This product does not include any protection from future market performance so you could lose some or all of your investment.
If we are not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.
What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.
The stress scenario shows what you might get back in extreme market circumstances.
