

Appian Global Small Companies Fund

June 2022

The Appian Global Small Companies Fund (the Fund) is a concentrated equity fund which invests in small-cap stocks globally. The Fund targets long-established, well-managed, high-quality, cash-generative companies capable of delivering above average growth over time and whose prospects are undervalued by the market.

We seek companies which have a proven competitive advantage or offer a unique value proposition to its customers. Such qualities tend to be illustrated by strong returns on capital, and strong cash generation.

Fund objective

The Fund seeks to achieve its investment objective by investing on a diversified basis in the equity securities (i.e. shares) of small capitalisation companies which are listed or traded on Recognised Markets globally with no particular focus on any one country or industry
