

Gresham House Global Small Company Fund

May 2025

Gresham House

Specialist investment

The Gresham House Global Small Company Fund (the Fund) is a concentrated equity fund which invests in small-cap stocks globally. The Fund targets long-established, well-managed, high-quality, cash-generative companies capable of delivering above average growth over time and whose prospects are undervalued by the market.

We seek companies which have a proven competitive advantage or offer a unique value proposition to customers. Such qualities tend to be illustrated by strong returns on capital, and strong cash generation.

Fund objective

The investment objective of the Fund is to achieve long-term capital appreciation.

The Fund seeks to achieve its investment objective by investing on a diversified basis in the equity and equity related securities of small capitalisation companies and in open-ended collective investment schemes with similar exposure and with no particular focus on any one country or industry sector.
