

Gresham House Global Equity Fund

June 2026

The Gresham House Global Equity Fund (the Fund) is an actively managed, concentrated global equity fund that follows a value investment style. We believe this is the path to achieving long-term superior risk adjusted returns.

All our investment decisions are driven by valuation and this comes through in the companies in the Fund having an average dividend yield in excess of the market and a price-to-earnings ratio which is lower than the market.

Fund objective

The investment objective of the Fund is to achieve long-term capital appreciation.

The Fund seeks to achieve its investment objective by investing on a diversified basis in equity and equity related securities and in open-ended collective investment schemes, with no particular focus on any one country or industry sector.
