This document provides you with the key investor information about this sub-fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this sub-fund. You are advised to read it so you can make an informed decision about whether to invest.

## LF Gresham House UK Micro Cap Fund, C Institutional Income, (ISIN: GB00BV9FYT97)

The fund is managed by Link Fund Solutions Limited, part of the Asset Services Division of Link Administration Holdings Limited.

### Objective and investment policy

#### Objective

The fund aims to provide long term capital growth.

#### Investment Policy

The fund invests primarily in the shares of smaller UK companies that trade on UK markets. It may also invest in the shares of smaller global companies.

#### Essential features of the fund:

- The fund has the discretion to invest in the investments as described above as well as debt securities, warrants and collective investment schemes with no need to adhere to a particular benchmark.
- The fund does not target any specific industrial sector.
- You can buy and sell shares in the fund on each business day.
- The fund aims to distribute available income every six months.

### Risk and reward profile

- This indicator shows how much a Fund has risen and fallen in the past, and therefore how much a Fund's returns have varied. It is a measure of the Fund's volatility. The higher a fund's past volatility the higher the number on the scale and the greater the risk that investors in that fund may have made losses as well as gains. The lowest number on the scale does not mean that a fund is a risk free investment.
- The fund has been classed as 4 because its volatility has been measured as average.
- This indicator is based on historical data and may not be a reliable indication of the future risk profile of this fund.
- The risk and reward profile shown is not guaranteed to remain the same and may shift over time.

- Currency Risk: As the fund invests in overseas securities, movements in exchange rates may, when not hedged, cause the value of your investment to increase or decrease.
- Liquidity Risk: Smaller companies' securities are often traded less frequently than those of larger companies which means they may be more difficult to buy and sell. Their prices may also be subject to short term swings.
- Non-UCITS Retail Scheme (NURS): The fund can be less diversified than UCITS schemes as it has higher investment limits for certain types of asset. It can also invest in assets which are not available to UCITS schemes. This can increase the potential rewards but can also increase risk.
- For full details of the fund's risks, please see the prospectus which may be obtained from the address in 'Practical Information' below.

## Charges for this Fund

The charges you pay are used to pay the costs of running the fund. These charges reduce the potential growth of your investment.
