BARONSMEAD

Baronsmead VCT 3 plc

2011

Half-yearly report for the six months ended 30 June 2011

Investment Objective

Baronsmead VCT 3 is a tax efficient listed company which aims to achieve long-term investment returns for private investors.

Investment policy

- To invest primarily in a diverse portfolio of UK growth companies, whether unquoted or traded on AIM.
- Investments are made selectively across a range of sectors in companies that have the potential to grow and enhance their value.

Dividend policy

The Board of Baronsmead VCT 3 has the objective to maintain a minimum annual dividend level of around 4.5p per ordinary share if possible, but this depends primarily on the level of realisations achieved and cannot be guaranteed. There will be variations in the amount of dividends paid year on year. Since launch the average annual tax-free dividend paid to shareholders (including the declared interim dividend of 3.0p) has been 5.6p per ordinary share (equivalent to a pre-tax return of 7.4p per ordinary share for a higher rate taxpayer). For shareholders who received up front tax reliefs, their returns would have been even higher.

Secondary market in the shares of Baronsmead VCT 3

The existing shares of the Company are listed on the London Stock Exchange and can be bought and sold using a stockbroker in the same way as shares of any other listed company.

Qualifying investors* who invest in the existing shares of the Company can benefit from:

- Tax free dividends
- Realised gains not subject to capital gains tax (although any realised losses are not allowable)
- No minimum holding period
- No need to include VCT dividends in annual tax returns

The UK tax treatment of VCTs is on a first in first out basis and therefore tax advice should be obtained before shareholders dispose of their shares and also if they deferred a capital gain in respect of new shares acquired prior to 6 April 2004.

* UK income tax payers, aged 18 or over, who acquire no more than £200,000 worth of VCT shares in a tax year.

Chairman's Statement

I am pleased to report that over the six months to 30 June 2011, the Net Asset Value ("NAV") per share increased by 9.1 per cent from 102.1p to 111.4p before payment of a 3.0p per share interim dividend. This growth is due to a series of valuation increases across the portfolio and compares favourably with the FTSE All-Share Index which increased by 3.0 per cent. The share price total return for Baronsmead VCT 3 over the same period was 7.1 per cent. Since inception the Net Asset Value Total Return to 30 June 2011 is 196.4p for each 100.0p invested before taking account of any VCT tax reliefs.

Value growth occurred across the investment portfolio with the unquoted portfolio increasing in value by 12.3 per cent, the AIM-traded and listed portfolio by 12.8 per cent and Wood Street Microcap Investment Fund increasing by 11.2 per cent.

A 3.0p interim dividend has been declared and is being paid largely from recently realised capital profits and revenue. Reed & Mackay was successfully sold during the period at 4.8 times the original cost and the realised capital profits of £3.8 million add significantly to reserves available for future dividend payments.

All of the VCT qualifying tests have been met throughout the six months to 30 June 2011.

Portfolio Review

The portfolio is well-diversified in several aspects: by the number of investee companies, by the sector of the economy in which they operate and by whether they are unquoted or quoted (which includes AIM-traded and other quoted securities). The trading of the sixty-four portfolio companies remained consistent over the six months with the performance of 81 per cent of investee companies now being classified as steady or growing. At 30 June 2011, 47 per cent of the portfolio by value was invested in unquoted companies, 24 per cent in AIM-traded and listed companies, 5 per cent in Wood Street Microcap Investment Fund and the balance of 24 per cent remained in cash, interest bearing securities or government securities.

All areas of the portfolio increased in value over the six month period. The main value gains within the unquoted portfolio came from Nexus Vehicle Holdings (the largest unquoted investment at 8.0 per cent of

NAV) and Quantix both of whom continue to show strong profits growth. The AIM-traded portfolio increased by 12.8 per cent including a significant increase in value of IDOX plc (the largest quoted investment at 3.9 per cent of NAV), which provides software and IT services typically to the public sector. The unquoted portfolio companies provide monthly management accounts and so it is possible to track trading trends. Sales growth is being maintained and generally there has been an increase in profit margins leading to higher operating profits.

Two investments were sold during the period, Reed & Mackay (4.8 times cost) and Craneware (4.2 times cost). After the end of the period on 7 July 2011, the unquoted investment in Getting Personal was also successfully sold to Card Factory.

Wood Street Microcap Investment Fund continues to make good progress and its value increased in the six months by 11.2 per cent to £3.1 million, spread across thirty investments. This fund was established by ISIS Equity Partners in May 2009 to provide flexibility for the Baronsmead VCTs to invest in mainly larger and more liquid non-VCT qualifying AIM-traded and Small Cap quoted opportunities. The investments are intended to generate improved quoted investment returns for the Company and also be more readily realisable than smaller VCT qualifying AIM-traded shares. Since its formation, the unit price of Wood Street Microcap has increased by 38.1 per cent in value.

Chairman's Statement

New Investment

A total of £2.64 million was invested in the six months to 30 June 2011 in three new investments (one unquoted and two AIM-traded companies) and five small further funding rounds in existing AIM portfolio investments.

The Baronsmead VCTs collectively invested a total of $\pounds 6.5$ million in Valldata Group in January 2011, with Baronsmead VCT 3 investing $\pounds 1.62$ million. Valldata Group, based in Wiltshire, is the UK's leading provider of outsourced donation processing and fulfilment services for the UK not-for-profit market, servicing over fifty of the largest UK charities.

The two new AIM-traded investments were Music Festivals, an operator of live music events, in which Baronsmead VCT 3 invested £0.5 million and Ubisense Group, a provider of radio frequency tracking solutions for the high value manufacturing sector, in which £0.13 million was invested.

Shareholder Matters

On 1 August 2011 an amendment to the EU Prospectus Directive was introduced by HM Government enabling companies to raise up to €5.0 million over a twelve month period without the need to publish a prospectus (increased from the previous limit of €2.5 million). Dependent upon the Company's

requirement for additional resources to fund new investments in the current tax year, the Board is currently planning to raise the sterling equivalent of up to €5.0 million in the early part of 2012. If confirmed, I will write to shareholders when the quarterly fact sheet for the three month period to 30 September 2011 is published in November 2011 to give further details.

Outlook

The proposals set out in the 2011 Budget recognise that entrepreneurial companies, like those backed by Baronsmead VCT 3, are critical to creating the UK economic growth, jobs, and wealth that are so essential for Britain's future prosperity. We have the capability to make further investments in these ambitious entrepreneurial businesses and there is a solid platform within our existing portfolio for future growth.

The outlook for the UK economy remains uncertain with many commentators anticipating low growth due to public sector cuts, tax rises and continuing high levels of unemployment. However, the Baronsmead VCT 3 portfolio is showing resilience and an ability to withstand these pressures assisted by the active management, disciplines and encouragement from ISIS. We therefore hope to sustain our performance and to continue generating tangible returns for our shareholders.

Independent Review Report to Baronsmead VCT 3 plc

Introduction

We have been engaged by the Company to review the condensed set of financial statements in the half-yearly financial report for the six months ended 30 June 2011 which comprises the Income Statement, Reconciliation of Movement in Shareholders' Funds, Balance Sheet and Statement of Cash Flows and the related explanatory notes. We have read the other information contained in the half-yearly financial report and considered whether it contains any apparent misstatements or material inconsistencies with the information in the condensed set of financial statements.

This report is made solely to the Company in accordance with the terms of our engagement to assist the Company in meeting the requirements of the Disclosure and Transparency Rules ("the DTR") of the UK's Financial Services Authority ("the UK FSA"). Our review has been undertaken so that we might state to the Company those matters we are required to state to it in this report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company for our review work, for this report, or for the conclusions we have reached.

Directors' responsibilities

The half-yearly financial report is the responsibility of, and has been approved by, the Directors. The Directors are responsible for preparing the half-yearly financial report in accordance with the DTR of the UK FSA.

As disclosed in note 1, the annual financial statements of the Company are prepared in accordance with UK Accounting Standards and applicable law (UK Generally Accepted Accounting Practice). The condensed set of financial statements included in this half-yearly financial report has been prepared in accordance with the Statement Half-Yearly Financial Reports as issued by the UK Accounting Standards Board.

Our responsibility

Our responsibility is to express to the Company a conclusion on the condensed set of financial statements in the half-yearly financial report based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements (UK and Ireland) 2410 Review of Interim Financial Information Performed by the Independent Auditor of the Entity issued by the Auditing Practices Board for use in the UK. A review of interim financial information consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing (UK and Ireland) and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the condensed set of financial statements in the half-yearly financial report for the six months ended 30 June 2011 is not prepared, in all material respects, in accordance with the Statement Half-Yearly Financial Reports as issued by the UK Accounting Standards Board and the DTR of the UK FSA.

Simon Pashby for and on behalf of KPMG Audit Plc Chartered Accountants Edinburgh 18 August 2011
