Chairman's Statement

The last six months has been a period of sharply falling stock market prices. Baronsmead VCT2 has held and continues to hold significant funds in cash or fixed interest securities. This and our portfolio diversity (particularly in unquoted investments) has provided some protection against market volatility resulting in relative out performance against the FTSE All-Share and its peer group of generalist VCTs.

Achieved results | During the six months to 30 September 2002 the net asset value per share has decreased by 6.8 per cent from 100.5p to 93.7p per share after the proposed interim dividend of 1.0p per share. While not directly comparable because 50.7p of our assets are in cash or fixed interest securities, the result can still be judged favourably with the FTSE All-Share. which fell 29.6 per cent over the same period.

Since launch Baronsmead VCT 2 has generated a positive total return (dividends paid plus change in NAV) of 13.1 per cent which compares to a 28.6 per cent reduction in the FTSE All-Share over the same period. This out performance differential is further increased if the VCT tax reliefs are taken into account.

The Board has declared an interim dividend of 1.0p per share (1.3p in 2001) which will be paid on 13 December 2002 to shareholders on the register at close of business on 15 November 2002. Total dividends of 14.4p per share have been paid since launch.

Investment environment | In my last Chairman's Statement in May 2002 I was optimistic that the UK economy was showing signs of stabilisation. However the lack of current investor confidence has eroded stock market prices still further, which in turn has had an impact on our portfolio valuations. Additionally the level of merger and acquisition activity has reduced which has been reflected in the recent level of new investments.

The number of investment proposals received and considered by the Investment Manager is constantly monitored. Whilst there has been a sharp decrease in 'early stage' investment opportunities, the number of mature business proposals seriously considered is comparable to the levels of previous years. The Manager has opened an office in Manchester and strengthened the investment team to increase market share in this regard. However one trend of the current economic environment is that investments are taking longer to complete. All stakeholders and potential investors want to be certain that an increasing number of issues have been resolved before funds are committed.

Investment rate | The VCT legislation requires 70 per cent of the value of funds raised to be invested in qualifying investments within three vears. This means that for Baronsmead VCT 2 to maintain its tax status as a VCT, a further £8 million to £9 million of investment is required before 31 March 2003. In seeking to achieve this challenging rate of investment, however, the Manager, rightly, is unwilling to sacrifice quality.

Recently the flow of good opportunities has started to accelerate and the Manager believes that this upturn should enable the 70 per cent test to be met. However, to enhance the flow of investment opportunities the Manager has undertaken a number of initiatives including extending its geographical reach with a local presence in the North of England. Additionally the Board has agreed that, where applicable, a larger share of unquoted investments will be apportioned to your Company. This aids the ability of Baronsmead VCT 2 and other clients of the Manager to invest collectively in larger transactions (typically with a deal value of between £3 million and £6 million).

Portfolio performance | Five new investments and one further investment were made in the six-month period to 30 September 2002 totalling £2.4 million.

- Fretwell Downing Informatics international supplier of library management solutions Based in Sheffield, FDI provides software solutions to public, research and corporate libraries across the UK, the USA and Australia. Baronsmead VCT 2 provided £565,000 of the £3.2 million development capital.
- Rarrigini & Rosso provider of insurance products and developer of brokering IT

Based in Peterborough, R&R provide a range of insurance products (motor fleet, property and haulage) to an extensive network of insurance brokers. Through these broker relationships it

Chairman's Statement

has launched a new outsourced service providing all the IT needs of running full front and back office support to the broker, £526,900 was invested as part of the £5 million raised to develop this new IT service.

• i-documentsystems - provider of document management systems to local authorities

i-documentsystems is based in London and raised £1.2 million as a placing on AiM both to acquire The Planning Exchange and also to provide working capital to fund the rollout of its document and management solutions throughout Local Government, Baronsmead VCT 2 invested £400.000.

MEM Entertainment – building an audiovisual publishing group

MEM raised £10.3 million to make two acquisitions; Leisureview, a niche video publishing business and Fountain, the UK's independent television Baronsmead VCT 2 invested £360,000 as part of the £3.4 million raising on AiM.

• VI Group - supplier of CAD/CAD software to the mould and die industry

Baronsmead VCT 2 invested £500,000 of a £3.2 million placing on AiM. The financing round is being used to widen their software offering and strengthen their distribution channel internationally.

A further investment of £80,800 was made in kidsunlimited

The Business Service and Consumer market sectors continue to provide the majority of the investments in the portfolio, representing 35 per cent and 36 per cent by value respectively.

As shareholders will appreciate the nature of our business involves the taking of risk and, despite thorough due diligence, it is inevitable that some of our investments will not succeed. Indeed problems tend to become evident before the successes are recorded and in the last six months there have been a number of disappointments. Both Demica and 4:2:2 have found conditions tough in their respective markets with clients freezing spending plans. Almost full provisions have been made against these investments. In addition James Gilbert has subsequently been sold at a total loss following a continued period of poor trading.

On the positive side it is possible that a number of profitable realisations will occur in the second half of this year. The policy of Baronsmead VCT 2 is to primarily invest in growing established and profitable businesses. As described at the AGM on 21 June 2002 the top five investees had achieved average sales and operating growth for each of the last two years at rates of more than 20 per cent per annum. These businesses continue to make good progress.

Meeting shareholders' needs | The Board of Baronsmead VCT 2 plc is dedicated to providing shareholders with clear and communication as well as offering financial planning choices. We continue to try to lead the market in this regard since we believe that it is vital for you, our shareholders, to understand fully the progress of your investment. There will be a series of workshops from January 2003 for all shareholders, but particularly those subscribed before April 1998 and after April 2000 and who are now approaching the end of their holding period. Further details will be sent to shareholders in December.

In the six months to 30 September 2002, 145,389 new shares were issued and 135.000 shares bought back. The Board has decided that, on this occasion, it will not be making a top-up offer to shareholders

Outlook | The plan remains unchanged. We intend to build a portfolio of around 50 primarily established and profitable companies and we are making good progress towards this target. The increased level of dealflow in recent times should translate itself into a significant number of completed deals in the next few quarters. The Managers intend to invest in quality business propositions and the portfolio should benefit from the lower prices, which are resulting from the current economic conditions. Certainly your Board and the Managers believe that there are opportunities in a tough market and the Managers constantly try to identify investments with above average potential.

Independent Review Report to Baronsmead VCT 2 plc

Introduction

We have been instructed by the Company to review the financial information for the six months ended 30 September 2002 which comprises the Statement of Total Return, Balance Sheet, Statement of Cash Flows and the related notes. We have read the other information contained in the interim report and considered whether it contains any apparent misstatements or material inconsistencies with the financial information.

Directors' responsibilities

The interim report, including the financial information contained therein, is the responsibility of, and has been approved by the Directors. The Directors are responsible for preparing the interim report in accordance with the Listing Rules of the Financial Services Authority which require that the accounting policies and presentation applied to the interim figures should be consistent with those applied in preparing the preceding annual accounts except where any changes, and the reasons for them, are disclosed.

Review work performed

We conducted our review in accordance with the guidance contained in Bulletin 1999/4 issued by the Auditing Practices Board for use in the United Kingdom. A review consists principally of making enquiries of management and applying analytical procedures to the financial information and underlying financial data and based thereon, assessing whether the accounting policies and presentation have been consistently applied unless otherwise disclosed. A review excludes audit procedures such as tests of controls and verification of assets, liabilities and transactions. It is substantially less in scope than an audit performed in accordance with United Kingdom Auditing Standards issued by the Auditing Practices Board and therefore provides a lower level of assurance than an audit. Accordingly, we do not express an audit opinion on the financial information.

Review conclusion

On the basis of our review we are not aware of any material modifications that should be made to the financial information as presented for the six months ended 30 September 2002.

Baronsmead VCT 2 plc is managed by ISIS Equity Partners plc a wholly owned subsidiary of ISIS Asset Management plc which is regulated by the Financial Services Authority. Past performance is not necessarily a guide to future performance. Stockmarkets and currency movements may cause the value of investments and the income from them to fall as well as rise and investors may not get back the amount they originally invested. Where investments are made in unquoted securities and smaller companies, their potential volatility may increase the risk to the value of, and the income from, the investment.
