BARONSMEAD

Baronsmead VCT 2 plc

2013

Half-yearly report for the six months ended 31 March 2013

Investment Objective

Baronsmead VCT 2 is a tax efficient listed company which aims to achieve long-term investment returns for private investors, including tax free dividends.

Investment Policy

- To invest primarily in a diverse portfolio of UK growth businesses, whether unquoted or traded on AIM.
- Investments are made selectively across a range of sectors in companies that have the potential to grow and enhance their value.

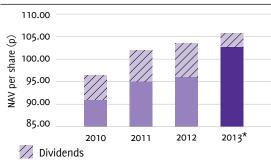

Dividend policy

The Board of Baronsmead VCT 2 aims to sustain a minimum annual dividend level at an average of 6.5p per Ordinary Share, mindful of the need to maintain net asset value. The ability to meet these twin objectives depends significantly on the level and timing of profitable realisations and it cannot be guaranteed. There will be variations in the amount of dividends paid year on year.

Since launch the average annual tax free dividend paid to ordinary shareholders including the 3.0p interim dividend, has been 6.4p per share (equivalent to a pre-tax return of 8.5p per share for a higher rate taxpayer). For shareholders who claimed tax reliefs on initial subscription of 20 per cent, 30 per cent or 40 per cent, their returns would have been higher.

Chairman's Statement

Clive Parritt Chairman

This has been an excellent period for the Company. A 10.0 per cent increase in Net Asset Value per share for the six months to 31 March 2013 is attributable to increased valuations in both the unquoted and quoted portfolios. The performance of the AIM market has been particularly strong and this accounts for 70 per cent of the growth. At the same time, our unquoted portfolio continues to develop well. Three profitable realisations generated £4.3 million during the period. In December 2012, the Company raised £4.72 million net of expenses from 832 shareholders.

The Board has declared an interim dividend of 3.0p per share.

Results

Before taking account of the 3.0p per share interim dividend, the Net Asset Value increased to 105.72p per share, up 10.0 per cent from 96.10p per share.

	Pence per ordinary share
NAV as at 1 October 2012 (after deducting the final dividend of 5.0p)	96.10
Valuation uplift (10.0 per cent)	9.62
Less interim dividend payable on 14 June 2013 (to shareholders on the register on 31 May 2013)	(3.00)
NAV as at 31 March 2013	102.72

All areas of the portfolio have increased in value during the six months under review.

- The gains have been led by the quoted portfolio (comprising AIM and Wood Street Microcap Investment Fund) which increased by 24.6 per cent (8.0p per share) benefiting from the improvement in quoted share prices generally (the FTSE All Share Total Return index increased by 14.5 per cent over the same period).
- The unquoted portfolio increased in value by 5.2 per cent (2.6p per share) reflecting the continuing steady progress made by these investments.
- The most significant change in the portfolio was the 76.6 per cent increase in the value of the Company's investment in Staffline, a national recruitment and outsourcing organisation. Baronsmead VCT 2 first invested in Staffline in 2000 when it was an unquoted company. Subsequently, Staffline floated on the AIM market in 2004 at a price of 80p and was trading at £3.92 as of 31 March 2013. Although not fully realised and so subject to

future sale proceeds, the return on the Company's investment in Staffline has been 5.9 times the cost of the original investment taking account of previous realisations and valuing the unrealised shares at the 31 March 2013 bid price.

When the interim dividend of 3.0p per share is added to the final dividend of 5.0p per share paid in January 2013, the current annual dividend yield based on a mid-market share price of 99.50p is 8.0 per cent after tax (equivalent to 10.7 per cent for a higher rate taxpayer).

Long Term Performance

The Company is a generalist investor and our investment objective and the investment and dividend policies are aimed at producing consistent returns over the long-term.

The NAV total return over the last ten years has been 239.3p (before taxation benefits) for each 100p invested compared with an average of 188.4p for the VCT generalist sector as a whole (source AIC). Over the same period, cumulative tax free dividends paid to shareholders, including the proposed final dividend of 3.0p, amount to 76.0p per share (equivalent to 101.3p for a higher rate taxpayer). The comparable return would be higher if the initial income tax relief available on subscription was included in the computation.

The FTSE All-Share Index grew to 275.29p using the same metrics but this index takes no account of the restricted nature of VCT investments or the benefit of tax reliefs available to qualifying investors in VCTs.

The Company's stated policy is to maintain a minimum annual dividend of around 6.5p per share if possible. The average annual tax free dividend paid to shareholders (including the interim dividend of 3.0p per share) in the past ten years has been 7.6p (6.4p since launch), comfortably ahead of the minimum target.

Chairman's Statement

Portfolio Review

At 31 March 2013, the portfolio comprised 71 companies. The Board receives quarterly reports indicating the trading performance of those companies in order to monitor the health of the portfolio. At 31 March 2013, 83 per cent of companies in the portfolio were reporting steady or better progress.

The Company has also invested in Wood Street Microcap, a fund giving investment exposure to a further 36 AIM-traded and fully listed companies.

The net assets of £79.4 million were invested as follows:

- 25 Unquoted companies (49 per cent)
- 46 AIM-traded and other listed companies (32 per cent)
- Wood Street Microcap Investment Fund (6 per cent)
- Cash and fixed interest (13 per cent.)

New Investment

During the six months to 31 March 2013 a total of £2.5 million was invested in three new companies and in some additional funding for existing AIM investments.

An investment was made in Create Health, an unquoted London based company which is an internationally renowned fertility clinic specialising in Natural and Mild IVF using methods that are cheaper, safer, and healthier for the mother and baby. The Natural and Mild approach to IVF is common in advanced fertility markets overseas such as Scandinavia, South Korea and Japan, as well as in other parts of Europe.

After the period end, a further new unquoted investment of $\pounds 0.9$ million was made in Eque2, a construction industry Enterprise Resource Planning solutions provider.

We made two new AIM investments in Ideagen plc (compliance software solutions) and Pinnacle Technology Group plc, a B2B telecoms and IT retailer.

Sale of Investments

During the six months to 31 March 2013 a total of \pounds 4.3 million was realised from three investments.

- Unquoted the Company's investment in Micro Librarian Systems Ltd ("MLS") was sold to Capita realising £1.1 million, a 2.8x multiple return (see below).
- AIM
 - FFastFill was sold following a recommended offer received from Pattington (part of the ION Group) realising £0.9 million, representing 2.8 times return on the amount invested.
 - IDOX was partially sold through the market realising £2.3 million, representing 5.5 times return on the amount invested.

MLS is the leading provider of library and resource management systems to the UK education sector. Since Baronsmead VCT 2's investment in 2006 the turnover of MLS almost doubled while the values, culture and dedication to providing best in class systems and services were maintained. Its purchase (by Capita), which represented a return of 2.8 times on the amount invested, fits with Capita's strategy of developing capability in their target markets.

FFastFill had been an investment since 2007 and on sale achieved 2.8 times cost resulting in a profit of £0.6 million. In addition, the firmness of the share price in IDOX enabled a proportion of the holding to be sold at 5.5 times cost yielding a capital profit of £1.9 million.

Since the period end, the Company sold its unquoted investment in Independent Living Services ("ILS") realising £3.43 million, representing a return of 2.5 times the original cost of the investment. The realisation figure includes interest payments over the life of the investment and the redemption premium received. Part of the Company's quoted holding in Staffline Recruitment Group plc was also sold after the period end, realising £1.58 million.

Fund Raising and Shareholder Matters

The Company issued a prospectus on 20 November 2012 to raise up to £5 million before expenses. The Offer closed after 19 working days on 17 December 2012 fully subscribed. On behalf of the Board of Directors, I would like to thank the 426 existing shareholders' who subscribed to the recent fundraising and extend a warm welcome to the Company's 406 new shareholders.

Chairman's Statement

In October 2012, around 3,000 shareholders responded to the shareholder survey that was sent to approximately 10,000 investors in the five Baronsmead VCTs. Several of the questions repeated those asked in the previous survey carried out in October 2006 in order to measure any changes in shareholders' views. Key results included:

- An indication that the investment priority of shareholders had moved slightly from a modest preference for capital growth to a greater desire for income through dividends.
- Confirmation that a significant majority of shareholders intend to hold their shares for the long term.

The Board is very grateful to those shareholders who responded to the survey as it provides valuable information on which the Board can base its decisions. Following the shareholder survey, on 16 November 2012 the Directors announced that in an effort to minimise the discount between the share price and the NAV the Company would endeavour, in future, to buy back shares at a 5 per cent instead of at a 10 per cent discount to NAV. This revised share price discount policy will, of course, be kept under continuous review and may be subject to revision. Shares will be bought back depending on market conditions at the time and only where the Directors believe it to be in the best interests of shareholders as a whole.

We have made good progress during the period under review in reducing the difference between the share price and the net asset value of the Company's shares. At 31 March 2013 the discount was approximately 6.0 per cent. During the period the Company bought back 1,005,000 shares representing 1.2 per cent of the shares in issue at the period end.

The Company buys back its shares through the market and not directly from shareholders. This enables shareholders who wish to sell their shares to do so at a time which suits their own circumstance. It also maximises the opportunity for other investors to buy the Company's existing shares whilst minimising the number of shares bought back by the Company.

Outlook

The outlook for the UK economy remains mixed with many commentators expecting another drab year. Your Board does not indulge in economic forecasting and much prefers to view the outlook for your Company through the prism of the companies in which we have invested. From that perspective we have been encouraged to see a gradual improvement over the last year or so.

The portfolio is widely diversified, well resourced, adequately funded and the vitality and resilience of the entrepreneurial teams in which the Company has invested gives confidence that, mostly, they are well placed to grow profitably. Indeed, based on the experience of our portfolio, the negative views of some commentators regarding the UK economy seem out of place.

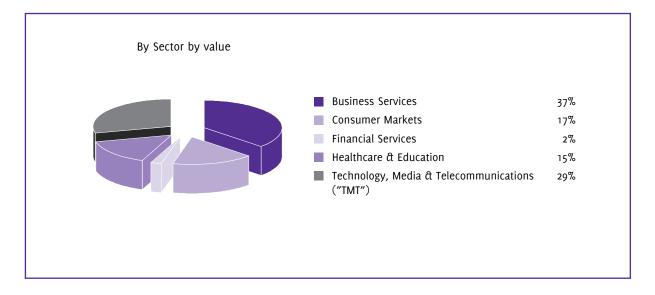

The progress in the portfolio is encouraging and, furthermore, there are signs of an increase in the number of investment opportunities available and we are hopeful that, over time, this will contribute further to the strength and diversity of the portfolio.

Cash flow projections have been reviewed and show that the Company has sufficient funds to meet both its contracted expenditure and its discretionary cash outflows in the form of the share buyback programme and dividend policy. The Company has no external loan finance in place and therefore is not exposed to any gearing covenants.
