

STRATEGIC EQUITY CAPITAL PLC
REPORT & FINANCIAL STATEMENTS

for the year ended 30 June 2017

Investment Objective

The investment objective of Strategic Equity Capital plc (“the Company”) is to achieve absolute returns (i.e. growth in the value of investments) rather than relative returns (i.e. attempting to outperform selected indices) over a medium-term period, principally through capital growth.

The Company’s investment policy can be found on page 14.

Investment Manager’s Strategy

The strategy of GVQ Investment Management Limited (“GVQIM” or the “Investment Manager”) is to invest in publicly quoted companies which will increase their value through strategic, operational or management change. GVQIM follows a practice of constructive corporate engagement and aims to work with management teams in order to enhance shareholder value.

A more detailed explanation can be found in the Investment Manager’s Report on page 5.

Shareholder Information

Financial calendar

Company’s year-end	30 June
Annual results announced	September
Annual General Meeting	November
Company’s half-year	31 December
Half yearly results announced	February

Share price

The Company’s Ordinary shares are premium listed on the main market of the London Stock Exchange. The mid-market price is quoted daily in the Financial Times under ‘Investment Companies’.

Share dealing

Shares can be traded through your usual stockbroker.

Share register enquiries

The register for the Ordinary shares is maintained by Computershare Investor Services plc (“Registrar”). In the event of queries regarding your holding, please contact the Registrar, on 0370 707 1285. Changes of name and/or address must be notified in writing to the Registrar, whose address is shown on page 60.

NAV

The Company’s net asset value is announced daily to the London Stock Exchange.

Ordinary share price	227.00p	169.50p

¹ Net asset value or NAV. The value of total assets less current liabilities. The net asset value divided by the number of shares in issue produces the net asset value per share.

² Discount. The amount by which the Ordinary share price is lower than the net asset value per Ordinary share. The discount is normally expressed as a percentage of the net asset value per share.

³ Premium. The amount by which the Ordinary share price exceeds the net asset value per Ordinary share. The premium is normally expressed as a percentage of the net asset value per share.

⁴ Total return. Total return is the increase/(decrease) in NAV per share plus the dividends paid, which are assumed to be reinvested at the time the share price is quoted ex-dividend.

⁵ Ongoing charges. Ratio of expenses as a percentage of average daily shareholders' funds calculated as per the Association of Investment Companies industry standard method.

⁶ Dividend yield. The proposed annual dividend expressed as a percentage of the share price.

Directors

The Directors in office at the date of this report, all of whom are non-executive, were as follows:

Richard Hills (Chairman) – Independent Director

Mr Hills has substantial investment trust board experience and is currently on the boards of JPMorgan Income & Capital Trust plc and Henderson International Income Trust plc and is chairman of SQN Secured Income Fund plc. Mr Hills was appointed to the Board on 5 March 2014.

Sir Clive Thompson (Deputy Chairman) – Non-independent Director

Sir Clive Thompson served as chairman of Rentokil Initial plc between 2002 and 2004, having been chief executive for 20 years to 2002. He is a former president of the CBI, member of the Committee on Corporate Governance and deputy chairman of the Financial Reporting Council. Sir Clive is also a former director of J Sainsbury plc, Wellcome plc, Seaboard plc, Caradon plc and BAT Industries plc. He is deemed non-independent by virtue of his position on the Industry Advisory Panel (“IAP”) of the Investment Manager. Sir Clive was appointed to the Board on 1 July 2005.

William Barlow – Independent Director

Mr Barlow is currently chief executive officer of Majedie Investments PLC, having been a director since 1999. He is a non-executive director of Majedie Asset Management Limited and was previously chief operating officer at Javelin Capital LLP. Mr Barlow joined Skandia Asset Management Limited as an equity portfolio manager in 1991 and was managing director of DNB Nor Asset Management (UK) Limited. He is also a Trustee of Racing Welfare. Mr Barlow was appointed to the Board on 1 February 2016.

Josephine Dixon – Independent Director

Miss Dixon, a Chartered Accountant, has a career that spans a number of financial and commercial roles in a variety of sectors from financial services to football. She has substantial investment trust board experience and is currently on the boards of BB Healthcare Trust PLC, F&C Global Smaller Companies PLC, Standard Life Equity Income Trust plc, JPMorgan European Investment Trust plc and Ventus VCT PLC. Miss Dixon was appointed to the Board on 14 July 2014.

Richard Locke – Independent Director

Mr Locke is Vice Chairman of Fenchurch Advisory Partners, an independent corporate finance advisory firm that specialises in the financial services sector. Previously he was a partner of Cazenove & Co. and then a director at its successor firm, JPMorgan Cazenove. Mr Locke was appointed to the Board on 10 February 2015.

The Strategic Report has been prepared in accordance with Section 414A of the Companies Act 2006 (the "Act"). Its purpose is to inform members of the Company and help them to assess how the Directors have performed their legal duties under Section 172 of the Act to promote the success of the Company.

Chairman's Statement

Introduction

I am pleased to report that the Company made good progress in the year to 30 June 2017, delivering very strong growth in both share price and net asset value ("NAV").

The Investment Manager's long standing approach in applying private equity investment techniques to public markets and focusing on a concentrated portfolio of high quality smaller companies continues to deliver positive performance. Further details on the Company's portfolio are included in the Investment Manager's Report on pages 5 to 11.

Performance

As at 30 June 2017, the Company had net assets of £176.3m (256.00 pence per share). This represented an increase of 29.3% in the Company's NAV per share over the period. On a total return basis, the Company's NAV per share increased by 29.6%, which was ahead of the FTSE Small Cap ex Investment Trusts Total Return Index ("FTSE Small Cap Index") which increased by 28.4%. The share price total return during the year was 26.1%.

The Company has delivered a NAV total return per share of 49.0% over the past three years, exceeding the 34.1% total return from the FTSE Small Cap Index by 14.9%. The five year NAV total return per share growth of 162.5% has exceeded the return from the Index by 29.6%. Notably, growth in the Company's NAV has been delivered without the use of gearing and with relatively low volatility.

Discount Management

The average discount to NAV at which the Company's shares have traded over the past 12 months was 11.0%. This masks volatility in the share ratings of both the Company and the broader UK Smaller Company investment trust sector as a whole. At the start of the financial year, the discount of 10.1% narrowed sharply before widening back to 11.4% as reported in the Company's Interim Accounts for the period to 31 December 2016. Following the change in lead portfolio manager announced in early February, the discount again widened, but has since settled at the level of the peer group average and the Company's shares ended the period trading at a discount of 12.7%.

Over the period, the Board has made use of the power granted by shareholders to buy back its shares. The Company has bought back a total of 975,419 Ordinary shares for an aggregate consideration of £2.1 million.

The Board continues to monitor closely the discount to NAV at which the Company's shares trade. Notwithstanding that the

average discount to NAV over the period exceeded 10%, the Board does not believe that the reintroduction of the tender offer is the best way forward, perceiving it to be a blunt tool which is unlikely to have a long term impact on the Company's share rating. Nevertheless, the Board will listen to the views expressed by the Company's shareholders as a whole in formulating its policy in this area. The Board will continue to use share buy-backs in normal market conditions, believing, as it does, that the ability to buy the Company's portfolio at these discount levels represents an excellent investment opportunity.

Investment Manager's Fees

The Board has entered into discussions with the Investment Manager on the level of fees payable.

Dividend

The Directors continue to expect that returns for shareholders will derive primarily from the capital appreciation of the Company's shares rather than from their dividends. However, in order to qualify as an investment trust, no more than 15% of the income which the Company derives from its investments can be retained in any financial year. Accordingly, the Board is proposing an unchanged final dividend of 0.78p per Ordinary Share for the year ending 30 June 2017 (0.78p in 2016), payable on 15 November 2017 to shareholders on the register as at 13 October 2017.

Development of the Company

The Board is delighted that your Company has grown its NAV per share by 29.3% over the past 12 months. This growth is a tribute to those who have worked hard to produce strong returns in the period. Jeff Harris and Adam Khanbhai are an excellent team, supported by the infrastructure of GVQ Investment Management. They are part of a well-resourced and highly competent group of investment professionals who should be able to maintain the current momentum of the Company into the future.

The Board

Your Board is both cohesive and collegiate and we are enthusiastic about the prospects for the Company. The composition of the Board did not change throughout the year. Although Sir Clive Thompson had indicated that he would step down at the 2017 Annual General Meeting ("AGM") he was asked by the Board to consider staying on for one more year. We all greatly appreciate Sir Clive's clear thinking and sound judgement. I am pleased to say that we shall indeed enjoy the benefit of Sir Clive's wise counsel for a further 12 months until the 2018 AGM. In the spring of next year we shall begin a recruitment process for Sir Clive's replacement.

Strategic Report *(continued)*

Chairman's Statement *(continued)*

Gearing and Cash Management

The Company has maintained its policy of operating without a banking loan facility. This policy is periodically reviewed by the Board in conjunction with the Investment Manager.

The Board, together with the Investment Manager, has a conservative approach to gearing because of the concentrated nature of the portfolio. No gearing has been in place at any point during the period. Cash balances are generally maintained to take advantage of suitable investment opportunities as they arise.

Annual General Meeting

We hope that as many shareholders as possible will attend the Company's Annual General Meeting, which will be held at the offices of Canaccord Genuity Limited, 88 Wood Street, London EC2V 7QR on 8 November 2017. This will be an opportunity to meet the Board and to receive a presentation from the Company's Investment Manager.

Outlook

The Board shares the Investment Manager's belief in the quality of the constituents of the portfolio.

With the Investment Manager's detailed private equity derived research process and long term investment horizon, we believe that the Company is well placed to deliver positive future returns.

The Board would like to thank you for your continued support.

Richard Hills
Chairman
14 September 2017

Investment Manager's Report

Investment Strategy

Our strategy is to invest in publicly quoted companies which we believe will increase their value through strategic, operational or management change. We follow a practice of constructive corporate engagement and aim to work with management teams in order to enhance shareholder value. We aim to build a consensus with other stakeholders and prefer to work alongside like-minded co-investors as leaders, followers or supporters. We try to avoid confrontation with investee companies as we believe that there is strong evidence that overtly hostile activism generally produces poor returns for investors.

We are long-term investors and typically aim to hold companies for the duration of rolling three-year investment plans that include an entry and exit strategy and a clearly identified route to value creation. The duration of these plans can be shortened by transactional activity or lengthened by adverse economic conditions. Before investing we undertake an extensive due diligence process, assessing market conditions, management and stakeholders. Our investments are underpinned by valuations, which we derive using private equity-based techniques. These include a focus on cash flows, the potential value of the company to trade or financial buyers and potentially beneficial changes in capital structure over the investment period.

The typical investee company, at the time of initial investment, is too small to be considered for inclusion in the FTSE 250 index. We believe that smaller companies provide the greatest opportunity for our investment style as they are relatively under-researched, often have more limited resources, and frequently can be more attractively valued.

We believe that this approach, if properly executed, has the potential to generate favourable risk adjusted returns for shareholders over the long term.

Market Background

The period began not long after the result of the EU Referendum. The initial market response was more positive than had been feared. Companies with overseas earnings saw these benefit from the material depreciation in sterling and supportive economic data alleviated investors' concerns. Earnings progression was positive over the past 12 months with the share price performance of more cyclically focused sectors such as construction and materials and industrial engineering particularly benefiting. The stock market continued a surge upwards post the US election result with the hope that President Trump would prove a boon for global growth. The first half of this calendar year stood by this optimism with strong PMI data across the globe.

The period drew to a close in a more sober mood. The 'snap' UK General Election appears to have further destabilised the political picture and the 'Brexit' negotiations continue to create uncertainty. The consumer environment in the UK remains weak with real wage growth running behind inflation, which has spiked in part as a result of the depreciation of sterling. Trading statements from DFS, AO World and Safestyle reflect the challenging consumer environment.

Performance over the year was strongest at the lower end of the size spectrum. The FTSE Small Cap Index produced a total return of 28.4% compared with the FTSE 250 Index of 22.2% and the FTSE 100 Index of 16.9%. The FTSE AIM All-Share Index delivered a total return of 38.5% and appears to be benefiting from continued inflows into IHT relief qualifying investment funds.

After predominantly seeing outflows for a number of months, smaller companies funds saw inflows in the first few months of 2017 as measured by the Investment Association fund flow data. The index has undergone a small re-rating, entering the period with a low teens median forward price-to-earnings multiple and modest mid single digit growth expectations.

Mergers and Acquisitions ("M&A") activity was strong throughout the year and across the market cap spectrum, with the likes of ARM Holdings, Sky, Berendsen and Exova among those being acquired by overseas buyers. The weak position of sterling relative to history provides a discount to potential overseas buyers. The NAV of the Company benefited from the takeover of E2V Technologies by Teledyne at a c.48% premium in early December. This provided a good case study for investing in covetable assets. Where public markets often misvalue companies based on short term factors, an anomaly can quickly close.

Performance Review

Performance across the portfolio was strong with seven companies delivering total share returns over 40% and a further six companies in excess of 20%. Pertinently, only two holdings delivered a negative share price return, which is pleasing as capital preservation remains a key focus for the portfolio.

In aggregate, the portfolio saw a modest re-rating from a lower base post the referendum, supplemented by strong growth in earnings and cash flow. Operationally, portfolio companies continued to demonstrate progress and provide confident future outlook statements.

Strategic Report *(continued)*

Investment Manager's Report *(continued)*

Top 5 Contributors to Performance

Company	Valuation at period end £'000	Period attribution (basis points)
Equiniti	20,130	455
Tribal	14,928	402
E2V Technologies	–	391
Clinigen	13,166	359
Servelec	18,467	312

Equiniti was a new investment made in early 2016 at, what we believe, was a very attractive valuation. It is our view that there had been concern around the level of gearing following the IPO at the end of 2015 and that the stock had suffered owing to negative 'read-across' from the specific problems of other companies in the support services sector. On both of these issues we had (and continue to have) a different view. Equiniti ended the year as the largest holding. The business had been very well invested through private ownership and bore significantly higher debt levels through the crisis without needing any equity injection. This is largely due to its resilience in providing 'critical but non-core' services, with average customer tenure in share registration of over 20 years. It is also markedly different from other support services companies in having limited public exposure to multi-billion pound 'cliff-edge' contracts. Despite headwinds of a cut in base rates and a slower IPO market, the company delivered solid growth in sales and profit. Total shareholder return of 60% over the year was supported by a re-rating as the market took account of the strong nature of the business model and exposure to growth areas including regulation technology ("RegTech") and the need for customers to have cost effective solutions. Towards the end of the period, Capita sold its share registration administration division to an international acquirer at a reported 13x EBITDA. This business has similarities to Equiniti's Investment Solutions division which accounts for approximately a third of the group and implies material valuation upside to the whole group.

Tribal delivered a total shareholder return of 56% over the year. We have been engaged with the company as it undertakes a strategy to overcome poor integration and a high cost base and build on a business with strong positions in attractive education and learning markets. Initial progress is encouraging. The company has delivered significant cost savings, identifying £9m of annualised efficiencies (on full year sales of c.£90m), the balance sheet has net cash and contract momentum is returning. We undertook further diligence over the year, visiting company sites and customers in Australia which reaffirmed our positive view of the company. The next steps for the business are to continue the

transition towards a purer application software business, thereby improving the recurring revenue base and operating margins.

E2V Technologies delivered a total shareholder return of 37% over the year. The shares initially performed strongly given the significant US\$ sales exposure of the group, but fell following delays in contract awards in space imaging at the time of interim results in November. Soon after, in early December an agreed bid from larger US peer Teledyne Technologies Inc. was announced at an all time high share price, and a premium of 48% to the prior day closing share price. The takeover was a positive culmination to an investment which involved a significant amount of engagement since first investment in late 2009.

Clinigen recovered from a depressed share price (and rating), delivering a total shareholder return of 42% over the year. Concerns over the timing of orders were addressed and the company reported strong growth in profit and cash flow in its full year results. The company held a capital markets day where the newly promoted CEO outlined the long term opportunities for the enlarged business given the significant shortage of access to medicines across much of the world. The acquisition of Link Healthcare in 2015 has provided access to a wider customer base and increased distribution to healthcare professionals in Africa, Asia and Australasia. In addition, the ongoing upgrade in the technology platform should improve operations and customer interaction.

Servelec delivered a total shareholder return of 33% over the year. The price initially recovered well from the surprise profit warning and downgrade in June last year. The shares were volatile driven by low liquidity and sentiment towards the timing of public sector spending. At the end of 2016, the company was awarded a previously delayed contract by Centrica to remotely operate an offshore gas platform. Full year results highlighted good order book progression and we recently increased our holding at a discounted valuation to historical levels.

Outside of the top five contributors, there was strong performance from **Gooch & Housego** delivering a total return of 59% over the year. It remains a very good quality business with strong growth, however it has re-rated to a very high valuation and as a result, the position has been materially reduced. A new position was initiated in **Medica** on its IPO in late March 2017 (see page 7 for further details). Its market displays positive long term prospects and the shares delivered a total return of 67%. The position in **Tyman** was increased in March 2017 and the shares delivered a total return of 42% over the year.

Bottom 5 Contributors to Performance

Company	Valuation at period end £'000	Period attribution (basis points)
IFG Group	13,429	(56)
Wilmington	10,867	(51)
Volution	–	1
Dialight	384	1
Northbridge	–	3

After a very strong prior year, **IFG Group** delivered a negative total shareholder return of 6%. The company's SIPP platform business, James Hay, was impacted by the cut in base rates in August last year which materially reduced interest income. In addition, continuing investment to improve back office functions and service levels has further depressed profits as highlighted in their full year results. Progress has been demonstrated in the growth in the average size of customer and the improving relationships with larger advisers. The wealth management business Saunderson House continues to grow strongly and is widening its discretionary management offering. Both businesses appear to be trading at a significant discount to precedent transaction multiples. The position was meaningfully increased after the final results in March.

Wilmington's share price has been volatile and delivered a negative total return of 4% over the year. Good progress in the risk and compliance divisions has been offset by legacy issues in financial training and legal businesses. The company performed in-line with market expectations over the period, however, the shares have de-rated significantly to what we view as a material discount to fair value.

The holding in **Volution** was realised in full a few weeks into the period.

A small investment was made in **Dialight** towards the end of the period.

Northbridge was a small holding throughout the period and was recently fully exited.

The average cash balance held by the Company was 12.0% over the period. The approach of the Board and Investment Manager is one of no gearing and to retain sufficient cash to enable the ability to participate in liquidity events without being a forced seller of existing holdings. The ending cash balance was 7.6% compared with 9.5% at the beginning of the period.

Dealing activity

The level of portfolio activity was higher than in recent years, driven largely by M&A. Disposals netted £45.5m (excluding distributions from unquoted investments) representing c.29% of the weighted average NAV. In addition, £0.6m of distributions were received from unquoted investments and £42.3m of purchases were made, representing 27% of the weighted average NAV.

The first part of the period saw significant selling activity leading to a very high cash balance at the end of September of around 17%. Cash was deployed into existing holdings which were weaker towards the end of the year but the cash balance was supplemented following the takeover of E2V. Until the consideration was paid in late March, the cash plus E2V (accounting for c.9.5% of NAV) was around 20% of NAV. As a result, there has been significant redeployment of capital in the second half of the reporting period.

New investments were made in three companies. As detailed in the Interim Report, an investment was made in **Harworth Group** soon after the EU Referendum. The company is one of the UK's largest land and property regeneration companies across the North of England and the Midlands, owning and managing over 22,000 acres across 140 sites. We had performed diligence on the company earlier in the year but the valuation at the time prevented investment. The price discount to net asset value ("NAV") subsequently widened materially to 35% and a seller provided liquidity for the initial £3.6m investment (with a further £1.0m invested later in the year). Harworth is modestly geared for a property company and we believe its regeneration and improvement model has the potential to generate long term NAV per share growth of 10-12% across the economic cycle.

We participated in the IPO of **Medica**, a UK market leader in the provision of outsourced teleradiology services to hospitals. Medica enables hospital radiology departments to send MRI, CT and X-ray images to an off-site Medica (NHS qualified) radiologist who can remotely interpret the scan. It has grown strongly owing to the growth in scanning activity driven by demographics and healthcare guidelines alongside the shortage of radiologists in A&E departments. The IPO was heavily oversubscribed and we received a high allocation investing £7.3m over the period with the vast majority at the IPO price. Although higher growth than a typical investment, we believe the business is very high quality with many long term structural growth drivers and has the possibility to move into other therapeutic areas.

A further new £6.2m investment was made in **Alliance Pharma**, the AIM listed UK pharmaceutical company. The company has a mature, diversified portfolio of niche

Strategic Report *(continued)*

Investment Manager's Report *(continued)*

prescription and branded over-the-counter (OTC) products built up over a long period of time. Growth has not been dependent on research and development and the company has limited exposure to the economic cycle. Post a large acquisition in 2015, the company has extended the product range and international footprint providing future opportunity. However, this also increased debt levels, which we believe has concerned investors and depressed the rating. The business is highly cash generative and is forecast to de-gear rapidly. The high free cash flow yield at investment is very attractive and, in our view, unreflective of the potential opportunities.

Material investments were made in existing holdings including **Equiniti** (£5.6m), **IFG** (£4.4m) and **Servelec** (£4.2m). A £3.5m top-up investment was made in **Tyman** at the end of February as the rating screened anomalously low on a growth and cash flow basis. Earnings have since been upgraded alongside a slight re-rating but the valuation remains attractive.

The longstanding holding in **E2V** was fully realised with £15.9m of cash received following the acquisition by Teledyne. Small investments in **Volution** (£1.7m), **Iomart** (£0.6m) and **Northbridge** (£0.5m) were sold in full.

The position in **Gooch and Housego** was materially reduced by £6.8m throughout the course of the year. The shares performed very strongly driven by good growth and cash flow and a significant re-rating. Although the company has rich intellectual property in photonics and is exposed to growing markets, we believe the valuation is a material premium in absolute and relative terms and prices in a high level of continuing future growth. Other sales of note included **Clinigen** (£4.8m) and **4imprint** (£3.0m) earlier in the period post the US\$ strengthening and **Brooks MacDonald** (£1.2m).

Portfolio as at 30 June 2017 – Top 10 Largest Investments

Company	Sector Classification	Date of first Investment	Cost £'000	Valuation £'000	% of invested portfolio at 30 June 2017	% of invested portfolio at 30 June 2016	% of net assets

4imprint Group	Support Services	Feb 2006	1,868	9,572	5.9	7.7	5.4

Portfolio Review

The portfolio remains highly focused with a total of 18 holdings. The top 10 holdings accounted for 76% of the NAV at the end of the financial period. 99.2% was invested in quoted companies. The percentage of the portfolio invested in unquoted securities fell from 1.2% to 0.8%. 7.6% of the NAV was invested in cash at the period end.

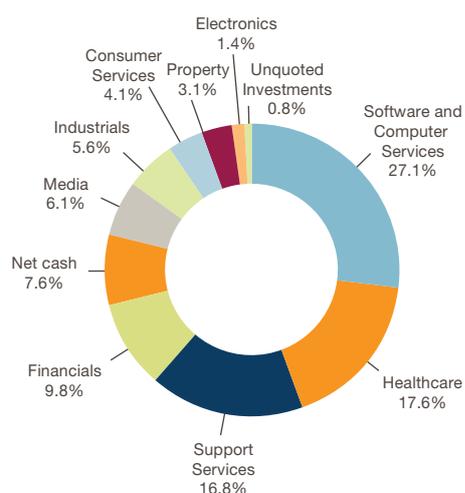

There have been changes in sector weightings with NAV exposure to Electronics reducing from 15.1% to 1.4%, following the realisation of E2V and the reduced investment in Gooch & Housego. Healthcare has increased from 9.5% to 17.6% as a result of new investments in Medica and Alliance Pharma and there is 3.1% exposure to property through Harworth.

Exposure to the UK has increased through new investments in Medica and Alliance Pharma and the increased weights in Equiniti and IFG Group, along with the realisation of E2V and the reduced holding in Gooch and Housego, both of which have international exposure.

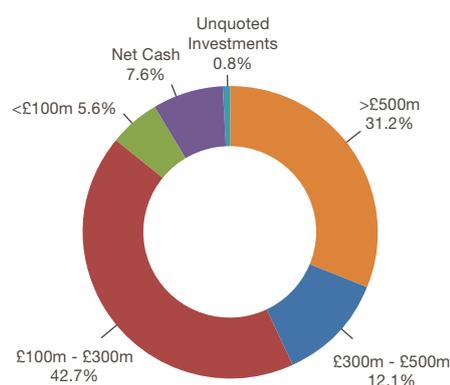

We screen for potential investments based on a long standing process focusing on 'four drivers' of equity returns; growth, value, corporate activity and de-gearing. We believe this combines the best aspects of public market and private equity investing and improves the chance of delivering shareholder value creation. Our focus is on specific companies as opposed to a 'top-down' overlay. Through the underlying holdings, we believe that the current portfolio is exposed to multi-year investment themes including the growth in regulation and compliance, digital health, non-R&D based pharmaceuticals, the growth in the pensions and savings market and infrastructure and building.

† GVQIM CASHFLOW YIELD: (12 MONTH FORWARD CASH EBITDA MINUS MAINTENANCE CAPEX)/(MARKET CAPITALISATION PLUS 12 MONTH FORWARD NET DEBT).

Consistent with previous periods, the portfolio's aggregate valuation (in terms of the P/E ratio) is higher than the constituents of the broader FTSE Small Cap Index. However, the portfolio companies enjoy less geared balance sheets and are forecast to grow earnings much faster. It is worth noting that the relatively high dividend yield of the broader indices reflects the exclusion of companies which do not pay a dividend.

Strategic Report *(continued)*

Investment Manager's Report *(continued)*

Unquoted Investments

Over the period, the Company received a capital distribution of £0.6m from Vintage I. The outstanding commitment relating to Vintage I is €1,560,000 and its adviser has communicated that it does not expect to make any further net draw downs.

Outlook

Over recent years, periods of uncertainty have become a feature in global political and financial systems, but rarely can there have been as many notable shifts as in the past 12 months, which have been well-trailed. Looking out, many issues remain: geopolitical tension between the global superpowers; terrorism; disunity in the UK political system; with a lack of clarity over the short and long term landscape and the prevalence of cyber crime to name but a few. In these situations, it is easy to lose focus. As investors, we continually consider the impact of events on companies and their customers, on capital flows and on valuations. Our approach is to continue to adopt a very disciplined and well-entrenched approach to investment focusing on:

- High quality business models;
- A cash flow based valuation methodology; and
- Retaining conviction based on companies' positions in long term structural growth markets.

The last of these, conviction, is key. Strategic Equity Capital is a high conviction portfolio. We believe in the virtues of investing for the long term. That is not to say we aren't scrutinous with the existing portfolio. We continually monitor and actively engage with existing holdings, assessing whether our detailed core investment theses remains valid. Away from the portfolio, we continue to meet several new companies every year. Few meet our strictly defined quality criteria and fewer still are what we consider investable. It is common that we follow companies for months and sometimes years before we feel the time is right to deploy new capital.

A challenge is distilling the abundance of information today. Our 'top-down' view is best informed from our numerous company interactions and considering how businesses are trading. As we stand, companies are trading as expected (and often better) and not seeing any meaningful sign of slowdown in their end markets. We remain cautious but cerebral.

As ever, there is a great deal of uncertainty to contend with. The spectre of the vast swathes of US Dollar denominated debt is coming in to focus again and there is still the longer term challenge of restricting the impact of 'tightening' on the global economy. In the UK, the household savings ratio is at

the lowest rate since records began back in 1963, with real household disposable incomes falling for the third consecutive quarter. We are consciously avoiding stocks exposed to UK discretionary spending. The foreign exchange benefit of the devaluation of sterling from this time last year has largely played out and may become a slight earnings headwind with sterling above \$1.30 at the time of writing. Hereon in, companies will need to demonstrate 'real' growth.

On the positive side, the global economy is enjoying a fairly broad based and synchronised upswing continuing the long and shallow growth cycle. Corporate balance sheets are improving with companies continuing to deleverage since the start of 2016. The median aggregate gearing of the Company's underlying holdings is 0.0x net debt to EBITDA. Although the market has re-rated from historic lows, the median small cap forward price to earnings multiple of around 14x doesn't feel stretching. On a relative basis, equities aren't overtly expensive. The spread between UK equity dividend and credit yields is at a multi year low. The first half of 2017 has seen private equity deal volumes at the highest level since 2007. The new period has started where it left off with M&A activity involving Worldpay, Novae, Paysafe and Cape. We believe this will be a continuing feature and note the recent proclamation from the Chief Executive of Meggitt, the FTSE 250 aerospace company, that 'British companies are probably the most attractive in the world to take over'. We invest in what we believe are highly covetable assets with limited impediment to potential acquisition.

For a long time, we have argued that global flows haven't reflected the positive prospects for equities. With recent reports of investors oversubscribing for 'century bonds', the prospects for permanent capital destruction are real. Pleasingly, there has been evidence to support our investment approach. Recent data from Preqin has showed that Private Equity 'dry powder' (funds available for investment), stood at \$906bn, a new industry record. In addition, 2017 has seen the return of inflows into the IA UK Smaller Companies sector, with April seeing the strongest month for inflows since March 2014.

We believe the opportunity set in smaller companies remains highly attractive. There is growing evidence of a small cap 'liquidity discount' where the smaller, less liquid part of the stock market suffers from lower valuations. The Company continues to adopt a longer term approach with the ability to take advantage of transitory pricing anomalies. Furthermore, it is oft-cited that smaller companies are 'under-researched'. This is even more valid further down the smaller company spectrum. Our 'sweet-spot' is genuine smaller companies (sub-£500m market capitalisation at the time of investment) and analyst coverage here is lower and could potentially reduce

post the changes that will be brought about with the introduction of MiFID II at the start of 2018. In this environment, we believe we are well placed with our detailed, multi-stage, long-focused research process.

In the absence of a 'black swan' event, markets tend to climb a wall of worry. Rather than being ebullient, investors remain skittish. Our view on fundamental characteristics is that the combination of growth and cash flow of over 20% is positive and provides us with assurance over medium term portfolio returns.

Our favourable outlook is framed by the underlying quality of the Company's portfolio of holdings. We are often asked what we mean when we talk of 'quality'. We look to take a share of businesses with genuine intellectual property, providing products or services that cannot be offered by many others. This confers on them market leadership or pricing power and the consequent ability to generate durable returns. The portfolio gives exposure to companies with leading positions in structurally growing markets. As such, our outlook over the medium term is positive. Uncertainty exists today as it has done over recent history and will undoubtedly exist in future periods. The constitution of the Company with underlying holdings of requisite quality at attractive valuations provides us with confidence over the Company's long term prospects.

Top 10 Investee Company Review (as at 30 June 2017)

4imprint Group is a leading direct marketer of promotional products with an international network of companies in North America and the UK. It processed over one million customised orders in 2016. We have been involved with the company since a change of management in 2003. Following the disposal of Brand Addition, virtually all of the profits of the group are generated by the fast growing US business. The company has a significant net cash balance. Funds managed by the Investment Manager currently hold approximately 3% of the company's equity.

Clinigen Group is a speciality pharmaceutical and services company. It has three business units – Clinical Trial Services, Unlicensed Medicines and Commercial Medicines. Activities undertaken by these businesses include: acquiring, licencing and revitalising hospital-only critical care medicines; and providing patient access to its own or other pharmaceutical companies' products, whether to meet unmet medical needs or for use in clinical trials. The company has grown rapidly since its IPO in 2012, both organically and through targeted acquisitions. In April 2015 it acquired Idis, a peer, for £225m through a mixture of debt and equity and in September 2015, acquired Link Healthcare, a specialist pharmaceutical and medical business focused on the Asia, Africa and Australasia region. We believe the cash flow characteristics are underappreciated which should see the company de-gear rapidly over the next two years. The company has a leading position in a multi-year growth market. Funds managed by the Investment Manager hold c.3% of the company's equity.

EMIS Group is a specialist healthcare software and services provider. It is the UK market leader in the provision of electronic patient records for GPs, with a 55% market share, and over 80% of total revenues are recurring. It also supplies electronic patient records to other healthcare organisations including community pharmacies, community and mental health trusts and accident & emergency departments. With solutions across every major healthcare setting, we believe EMIS is uniquely positioned to benefit from the NHS's connected care strategy. During the reporting period, the company announced additional investment into Patient, an online platform with 18 million unique monthly users to provide high quality healthcare information and solutions. EMIS is highly cash generative with a strong balance sheet providing future opportunity. Funds managed by the Investment Manager currently hold c.4% of the company's equity.

Equiniti Group is a business services company providing administration, processing payments services and technology products typically to FTSE 350 companies and large public sector organisations. It is one of the three main share registrars for UK quoted companies. It administers company

benefits schemes and share savings schemes. It also provides software and services to help manage the administration of company and public sector pension funds. We believe the business has a strong combination of stable, long-term repeatable non-discretionary corporate services alongside offering technology based solutions to growing regulatory requirements. The business was founded with the buyout of Lloyds TSB Share Registrars by private equity house Advent International in 2007. Following the buyout the company added to its product and service capability through a number of targeted acquisitions. The company IPO'd in October 2015. Whilst it was well invested under private equity ownership, there are significant medium to long term opportunities through rationalising its UK office footprint as well as offshoring more activities to its base in India. Together with moderate organic growth we believe that the company has the potential to deliver high single digit/low double digit earnings growth, which should not be significantly impacted by the broad market cycle. Despite its quality, the company trades at a moderate rating. The recently announced acquisition of Wells Fargo's Share Services business in North America is a positive development in our view. Funds managed by the Investment Manager currently hold c.5% of the company's equity.

IFG Group is a financial services holding company with two operating assets. London-based Saunderson House is a wealth manager with almost £5bn of assets under advice. James Hay is an investment platform, originally a pioneer in the provision of Self-Invested Pension Plans (SIPPs). Over the past few years, IFG has sold a number of other activities to focus on Saunderson House and James Hay. We believe that both of these businesses offer long-term structural sales growth, as well as scope to make higher margins. The shares are dual-listed in Dublin and London, with the primary listing in Dublin. Comparative M&A multiples suggest that IFG shares trade at a considerable discount to its Sum-of-Parts valuation. Funds managed by the Investment Manager currently hold 8% of the company's equity.

Medica Group is the leading provider of teleradiology services in the UK. The company provides outsourced interpretation and reporting of MRI, CT and plain film x-ray images. This is delivered through three primary services to UK hospital radiology departments: Nighthawk out-of-hours service; Routine cross-sectional reporting on MRI and CT scans; and Routine plain film reporting on x-ray images. Teleradiology as a service aims to improve patient care through faster response and overcoming the challenge hospitals face in the increasing volume in scanning activity. Medica was previously owned by Close Brothers Private Equity following a 2013 buyout. The company was IPO'd in

March 2017 on the LSE and admitted to the FTSE Small Cap index in June 2017. Funds managed by the Investment Manager currently hold c.5% of the company's equity.

Servelec Group is a UK technology company with three key divisions. The health and social care software division is a market leader in the design and operation of electronic patient records for NHS mental and community trusts. The controls division specifies, designs, assembles, installs and maintains safety and remote control systems for process industries. The technologies division provides software, hardware and systems for industrial telemetry and SCADA applications. It was listed in November 2013, having previously been owned by a Singaporean-listed group. The company has strong cash generation and a robust balance sheet and has utilised this effectively through acquisitions to augment the proposition. We believe the company has strong positions in markets exposed to long term structural change. Funds managed by the Investment Manager currently hold 9% of the company's equity.

Tribal Group is a global provider of products and services to the international education, training and learning markets. Today, the company focuses its activities on student records and administration systems and quality review inspection services. It has a high market share in a number of product niches and geographies. We believe that the company has the potential to grow through increasing its international sales, as well as updating and upselling to its existing UK customer base. Since November 2015 the company's board has been substantially refreshed, a non-core subsidiary sold and equity raised to strengthen the balance sheet. The company is one year in to a three year strategy and has effectively reduced its overhead and is developing its next generation software platform. Funds managed by the Investment Manager currently hold just below 10% of the company's equity.

Tyman is a leading international supplier of engineered components to the door and window industry in the new build and repair and maintenance (RMI) markets. We originally invested in the company following the fall in residential activity around the financial crisis in 2009. Under the current management team, the company has, through organic and inorganic investment, increased its market leadership, strengthened the product proposition and delivered significant cost and sales synergies. We believe future upside exists in the company's ability to replicate its North American manufacturing template to its operations in Europe and the Rest of the World to achieve material efficiencies, and in the recovery of U.S. single family housing activity to long term historical levels. Funds managed by the Investment Manager currently hold c.6% of the company's equity.

Wilmington Group provides business information and training services to professional business customers in the financial services, medical and white-collar professional service sectors. More than 80% of revenues in the main publishing and information divisions are delivered digitally, typically on a subscription basis, and with high levels of client retention. The company is highly cash generative. Growth has been held back over recent years by a significant fall, and no recovery, in its legal training market and the decline in some legacy print publications. This has masked strong growth in the rest of the business, in particular in Risk and Compliance. The company's strong cash flow has enabled it to make value-enhancing acquisitions again. In January 2017, it acquired Health Service Journal (HSJ) from Ascential to bolster the Healthcare division. Funds managed by the Investment Manager currently hold 5% of the company's equity.

GVQ Investment Management Limited
14 September 2017

The unconstrained, long-term philosophy and concentrated portfolios resulting from the Investment Manager's investment style can lead to periods of significant short-term variances of performance relative to comparative indices. The Investment Manager believes that evaluating performance over rolling periods of no less than three years, as well as assessing risk taken to generate these returns, is most appropriate given the investment style and horizon. The Investment Manager believes that this investment style, properly executed, can generate attractive long-term risk adjusted returns.

All statements of opinion and/or belief contained in this Investment Manager's report and all views expressed and all projections, forecasts or statements relating to expectations regarding future events or the possible future performance of the Company represent the Investment Manager's own assessment and interpretation of information available to it at the date of this report. As a result of various risks and uncertainties, actual events or results may differ materially from such statements, views, projections or forecasts. No representation is made or assurance given that such statements, views, projections or forecasts are correct or that the objectives of the Company will be achieved.

Other Information

Business and Status of the Company

The principal activity of the Company is to conduct business as an investment trust. The Company is currently an investment company in accordance with the provisions of Section 833 of the Companies Act 2006. The Directors do not envisage any change in the Company's activity in the future.

The Company has been incorporated with an indefinite life but is subject to an annual continuation vote. The Company is registered in England and Wales with number 05448627.

The Company has received written approval from HM Revenue and Customs as an authorised investment trust under Section 1158 of the Corporation Tax 2010 ("CTA") and the ongoing requirements for approved companies in Chapter 3 Part 2 of the Investment Trust (Approved Company) (Tax) Regulations 2011 (Statutory Instruments 2011/2999). The Company will continue to be treated as an investment trust company, subject to there being no serious breaches of the conditions for approval. The Company's status as an investment trust means that the Company does not pay capital gains tax on any profits arising from the disposal of its investments.

Investment Objective

The investment objective of the Company is to achieve absolute returns (i.e. growth in the value of investments) rather than relative returns (i.e. attempting to outperform selected indices) over a medium-term period, principally through capital growth.

Investment Policy

The Company invests primarily in equity and equity-linked securities quoted on markets operated by the London Stock Exchange where the Investment Manager believes the securities are undervalued and could benefit from strategic, operational or management initiatives. The Company also has the flexibility to invest up to 20% of the Company's gross assets at the time of investment in securities quoted on other recognised exchanges.

The Company may invest up to 20% of its gross assets at the time of investment in unquoted securities, provided that, for the purpose of calculating this limit, any undrawn commitments which may still be called shall be deemed to be an unquoted security.

The maximum investment in any single investee company will be no more than 15% of the Company's investments at the time of investment.

The Company will not invest more than 10%, in aggregate, of the value of its total assets at the time the investment is made in other listed closed-end investment funds.

Other than as set out above, there are no specific restrictions on concentration and diversification. The Board does expect the portfolio to be relatively concentrated, with the majority of the value of investments typically concentrated in the securities of 10 to 15 issuers across a range of industries. There is also no specific restriction on the market capitalisation of securities into which the Company will invest, although it is expected that the majority of the investments by value will be invested in companies too small to be considered for inclusion in the FTSE 250 Index.

The Company's Articles of Association permit the Board to take on borrowings of up to 25% of the NAV at the time the borrowings are incurred for investment purposes.

Performance and Dividend

Over the year to 30 June 2017, net assets have increased by £38.0 million representing an increase of 27.5% (29.3% increase on a per share basis). Further information on the performance of the Company's portfolio is contained in the Investment Manager's Report on pages 5 to 13.

The Company's investment objective is one of capital growth and it is anticipated that returns for Shareholders will derive primarily from capital gains. The Board is governed by the rules for investment trusts that require that the Company must not retain more than 15% of its income from any one year. The Board recommends a final dividend of 0.78p (2016: 0.78p) per Ordinary share, amounting to £533,000 (2016: £545,000) based on the Ordinary share capital at the date of this report.

Performance Analysis Using KPIs

In order to measure the success of the Company in meeting its objectives and to evaluate the performance of the Investment Manager, the Directors take into account the following key performance indicators:

NAV per Ordinary share

The NAV per Ordinary share, including revenue reserves, as at 30 June 2017 was 256.00p (30 June 2016: 198.06p).

Movement in the Company's share price

In the year to 30 June 2017, the Company's share price increased by 25.6% from 178.00p to 223.50p. The share price total return, taking account of the 0.78p dividend paid in the year, was 29.6%.

Discount of the share price in relation to the NAV

Over the year, the discount of the Ordinary share price in relation to the NAV ranged from 0.7% to 16.4%. As at 30 June 2017, the Company's shares traded at a discount of 12.7% (30 June 2016: discount of 10.1%).

Ongoing charges

The ongoing charges ratio was 1.25% in the year to 30 June 2017 (30 June 2016: 1.40%).

Investment Manager

The Investment Manager appointed by the Company is GVQIM. Established in 2002, the public equity team of GVQIM, formerly of SVGIM, was one of the first in the UK to invest in publicly traded equities using private equity techniques. The team consists of a number of investment professionals who combine a number of complementary skill sets, including corporate finance, traditional fund management, research and private equity disciplines. In addition, GVQIM makes use of a panel of industrial advisers and other external due diligence providers. GVQIM currently has funds under management of more than £700m.

Investment Management Agreement

The Company's investments are managed by GVQIM under an agreement dated 19 February 2015. The Investment Manager's appointment is subject to termination on 12 months' notice given at any time by either party.

There are no specific provisions contained within the Investment Management Agreement relating to compensation payable in the event of termination of the agreement other than entitlement to fees, including performance fees, which would be payable within any notice period. However, in the event that a continuation resolution proposed at any Annual General Meeting is not passed, the Investment Management Agreement expressly permits the Company to give notice terminating the Investment Manager's appointment without any compensation being payable to the Investment Manager in lieu of any period of notice otherwise required under the Investment Management Agreement.

The Board keeps the performance of the Investment Manager under continual review, and the Management Engagement Committee, comprising all Directors, conducts an annual appraisal of the Investment Manager's performance, and makes a recommendation to the Board about the continuing appointment of the Investment Manager. During the year, the Board reviewed the continuing appointment of the Investment Manager and agreed that the Investment Manager has executed the investment strategy according to the Board's expectations. Therefore, it is the opinion of the Directors that the continuing appointment of GVQ Investment Management Limited is in the interests of shareholders as a whole.

Investment Manager's Fees

The Investment Manager is entitled to receive from the Company a basic fee together with, where applicable, a performance fee.

Basic Fee

The basic management fee accrues daily, and is payable quarterly in arrears. The basic fee is the lower of (i) 1.0% of the NAV of the Company and (ii) 1.0% per annum of the Company's market capitalisation.

Strategic Report *(continued)*

Other Information *(continued)*

Performance Fee Arrangements

The Company's performance is measured over rolling three-year periods ending on 30 June each year, by comparing the NAV total return per share over a performance period against the total return performance of the FTSE Small Cap (ex Investment Companies) Index. A performance fee is payable if the NAV total return per share (calculated before any accrual for any performance fee to be paid in respect of the relevant performance period) at the end of the relevant performance period exceeds both:

- (i) the NAV per share at the beginning of the relevant performance period as adjusted by the aggregate amount of (a) the total return on the FTSE Small Cap (ex Investment Companies) Index (expressed as a percentage) and (b) 2.0% per annum over the relevant performance period ("Benchmark NAV"); and
- (ii) the high watermark (which is the highest NAV per share by reference to which a performance fee was paid previously).

The Investment Manager will be entitled to 15% of the excess of the NAV total return over the higher of the Benchmark NAV per share and the high watermark. Payment of a performance fee that has been earned will be deferred to the extent that the amount payable exceeds 1.75% per annum of the Company's NAV at the end of the relevant performance period (amounts deferred will be payable when, and to the extent that, following any later performance period(s) with respect to which a performance fee is payable, it is possible to pay the deferred amounts without causing that cap to be exceeded or the relevant NAV total return per share to fall below the relevant Benchmark NAV per share and/or the relevant high watermark).

A performance fee of £1,856,000 is payable in respect of the rolling three-year period ended 30 June 2017 (2016: £nil).

Administration Agreement

On 1 October 2016 PATAC Limited replaced Capita Sinclair Henderson as Company Secretary and Administrator. The fee charged in the year was £120,000 (2016: £98,000). The annual fee is £110,000 per annum and is subject to annual review based on the UK Retail Price Index. However, an additional fee of £10,000 was awarded in the current year for additional work performed.

Principal Risks and Uncertainties Associated with the Company

The Board believes that the overriding risks to shareholders are events and developments which can affect the general level of share prices, including, for instance, inflation or deflation, economic recessions and movements in interest rates and currencies which are outside of the control of the Board.

The principal ongoing risks and uncertainties currently faced by the Company, which may vary in significance from time to time, are outlined below, together with the controls and actions taken to mitigate those risks.

Principal Risk	Mitigation	Action taken in the year
<p>Investment Performance</p> <p>The unconstrained long-term philosophy and concentrated portfolios resulting from the investment strategy can lead to periods of significant short-term variation in performance. The underlying investments are in companies which, due to their smaller size, may have limited product lines, limited financial resources with dependence on a few key individuals and less liquid shares. These risks are more significant than in larger companies.</p>	<p>The Board maintains a close review of how the Investment Manager invests to implement the investment strategy and regularly reviews adherence to the investment policy.</p> <p>The Board maintains a longer-term perspective in relation to monitoring performance of the Investment Manager in achieving the investment objective.</p> <p>The Board relies on the Investment Manager to engage actively with the investee companies in order to support long term value enhancement and the actions taken are reviewed regularly by the Board.</p>	<p>The Board, through its review process, did not identify any specific new action required either with the portfolio as a whole or with any one specific investment to mitigate performance risk over and above that already taken by the Investment Manager.</p>
<p>Operational Risk</p> <p>The Company appoints and relies on a number of third parties including the Investment Manager to provide it with the necessary services, such as registrar, depository, custodian, administrator, company secretary, lawyers, external auditors and brokers.</p>	<p>The Board has a detailed risk matrix which is reviewed by the Audit Committee and the Board twice yearly and is used as a tool to consider the principal risks of the Company and the controls that are in place in relation to those risks where appropriate.</p> <p>Key appointments of third party service providers are taken after a formal process ensuring the required skills and experience are satisfied. An annual review of service providers is carried out by the Management Engagement Committee.</p> <p>Internal control reports on the systems and processes of the Company's service providers are reviewed at least annually and as appropriate and any findings discussed where appropriate.</p>	<p>Supervision of third party service providers has been maintained in the year.</p> <p>The Board, through its review process closely monitored the change in Lead Manager during the year and the change in the Company's Administrator from Capita Sinclair Henderson Limited to PATAC Limited.</p> <p>The Audit Committee undertook a tender process in May 2017 for the role of UK tax advisor and PwC was appointed with effect from 7 July 2017.</p> <p>The Board through its review process did not identify any other specific new actions.</p>

Strategic Report *(continued)*

Other Information *(continued)*

Principal Risk	Mitigation	Action taken in the year
<p>Regulatory Compliance and Legislation The Company is a UK incorporated company with a premium listing on the London Stock Exchange, is an authorised investment trust and has appointed GVQIM as Alternative Investment Fund Manager (“AIFM”) and Cannaccord Genuity as Broker.</p>	<p>The Board is comprised of individuals whose background qualifications and experience ensure that the relevant regulatory and legislative requirements are understood. Where appropriate, advice and training are sought from service providers. Board selection and performance review processes support this approach.</p>	<p>No changes were made to the Board during the year.</p>
<p>Discount/Premium A significant share price discount or premium to the Company’s NAV per share, or related volatility, could lead to high levels of uncertainty or speculation and the potential to reduce investor confidence.</p>	<p>The Board has established share issuance and share buy-back processes to assist in the moderation of share price premium and discount to NAV.</p> <p>Shareholders are kept informed of developments as far as practicable and are encouraged to attend briefings, such as the Company’s Annual General Meeting, to understand the implementation of the investment strategy to achieve the Company’s objectives.</p>	<p>During the year under review, the Company’s shares traded at a discount to NAV of between 0.7% and 16.4%.</p> <p>The Directors authorised the buy-back of 975,419 shares to be held in Treasury.</p>
<p>Economic, Political and External Factors The Company invests predominantly in UK shares and therefore performance may be impacted by economic, political and other factors which affect either the operation of the markets that portfolio companies trade in, the UK stock market or currency movements. In particular small changes can have a larger impact on small companies.</p>	<p>The exposure to these external factors is considered largely outside of the Company’s control so regular monitoring is carried out with regards to the likely effects should any potential mitigation be possible.</p> <p>Limits are set for investment in overseas based investments.</p> <p>Hedging of currency is not chosen as a mitigator due to the relative cost benefit not being compelling.</p>	<p>The UK’s exit from the European Union remains an area of focus as to potential impact to performance.</p> <p>The Board monitors and reviews the position of the Company, ensuring that adequate cash balances exist to allow flexibility.</p>
<p>Investment Manager The loss of key individuals at the Investment Manager could have or be perceived to have a material effect on the Company’s performance.</p>	<p>In order to reduce this risk the Investment Manager operates a team based approach to fund management. The team consists of a number of investment professionals who combine a number of complementary skill sets, including corporate finance, traditional fund management, research and private equity disciplines. The team is also supported by the Industry Advisory Panel of the Investment Manager.</p>	<p>The Board reviewed in detail the response of the Investment Manager to the changes in key personnel and were satisfied with the systems, processes and individuals supporting the Company going forward. They communicated that view and expressed confidence in the team both internally and externally. The Board continues to monitor the situation following the changes.</p>

Viability Statement

The Board has assessed the prospects of the Company over the three years to 30 June 2020. This assessment period has been chosen as the Board believes it represents an appropriate period given the long-term investment objectives of the Company, the low working capital and the simplicity of the business model.

In making this three year assessment, the Board has taken the following factors into account:

- The nature of the Company's portfolio
- The Company's investment strategy
- The potential impact of the Principal Risks and Uncertainties
- Annual continuation vote
- Share buy-backs
- The liquidity of the Company's portfolio
- Market falls and gains
- The level of existing and potential long-term liabilities

The Company's portfolio currently includes a large position in cash or liquid money market funds. Over the last five years, cash and liquid money market funds have averaged c.10.5% of the NAV. Cash balances can be varied due to changes in market conditions, but positive cash levels are expected to be maintained over the period.

The Company has not been geared for many years and the current policy of the Board is not to have a gearing facility.

The Directors have also carried out an exhaustive assessment of the principal risks, as noted on pages 17 and 18, that are facing the Company over the period of the review, including those that would threaten its business model, future performance, solvency or liquidity.

Based on this assessment, the Directors are confident that the Company's investment approach, portfolio management and balance sheet approach will ensure that the Company will be able to continue in operation and meet its liabilities as they fall due over the period to 30 June 2020.

Going Concern

A continuation vote is proposed at each Annual General Meeting of the Company. In the event that any such resolution is not passed, the Directors will be required to bring forward proposals to liquidate, open-end or otherwise reconstruct the Company. The Directors have considered the application of the Statement of Recommended Practice for Financial Statements of Investment Trust Companies and Venture Capital Trusts, which states that, even if an investment company is approaching a wind-up and shareholders have yet to vote on the issue and provided that the Board has not concluded that there is no realistic alternative to winding up the company, it will usually be more appropriate for the financial statements to be prepared on a going (rather than non-going) concern basis.

In assessing the Company's ability to continue as a going concern the Directors have also considered the Company's investment objective, detailed on page 14, risk management policies, detailed on pages 17 and 18, capital management (see Note 17 to the financial statements), the nature of its portfolio and expenditure projections and believe that the Company has adequate resources, an appropriate financial structure and suitable management arrangements in place to continue in operational existence for the foreseeable future. In addition, the Board has had regard to the Company's investment performance (see page 1), the price at which the Company's shares trade relative to their NAV (see page 1) and ongoing investor interest in the continuation of the Company (including feedback from meetings and conversations with Shareholders by the Company's advisers).

Based on their assessment and considerations, the Directors have concluded that they should continue to prepare the financial statements of the Company on a going concern basis and the financial statements have been prepared accordingly.

Resolution 11 at this year's Annual General Meeting represents the annual continuation vote by Shareholders on the Company's future. The Board believes this resolution to be in the best interests of the Company and its members as a whole, and strongly recommends that Shareholders should vote in favour of Resolution 11 as it intends to do in respect of its own beneficial shareholdings.

Strategic Report *(continued)*

Other Information *(continued)*

Environmental, Social and Governance Issues

As an investment trust, the Company has no employees, property or activities other than investment. The Company has no greenhouse gas emissions to report from its operations, nor does it have responsibility for any other emission-producing sources under the Companies Act 2006 (Strategic Report and Directors' Report) Regulations 2013.

The Board is comprised entirely of non-executive Directors and the day-to-day management of the Company's business is delegated to the Investment Manager (details of the Investment Management Agreement are set out on pages 15 and 16). Therefore the Directors do not consider it necessary for the Company to have environmental, human rights or community policies in place.

However, in carrying out its activities and in its relationships with service providers, the Company aims to conduct itself responsibly, ethically and fairly. The Investment Manager aims to be a responsible investor and believes it is important to invest in companies that act responsibly in respect of environmental, ethical and social issues. The Investment Manager's responsible investment policies and beliefs can be found on the Company's website. The Investment Manager is a signatory of the UK Stewardship Code and aims to comply with the majority of its recommendations.

The Investment Manager has considerable experience in corporate engagement. Its corporate engagement principles and engagement policy can be found on the Company's website.

Modern Slavery

The Company is not within the scope of the Modern Slavery Act 2015 because it has insufficient turnover and is therefore not obliged to make a human trafficking statement.

Diversity

The Board of Directors comprises four male Directors and one female Director and their biographical details are set out on page 2.

The Board's policy on diversity, including gender, is to consider this during the recruitment process. The Board is committed to appointing the most appropriate candidate who is the best fit for the Company regardless of gender or other forms of diversity.

On behalf of the Board

Richard Hills

Chairman

14 September 2017

Directors

The Directors in office at the date of this report and their biographical details are shown on page 2.

Corporate governance

The Company's corporate governance statement is set out on pages 24 to 30 and forms part of the Report of the Directors.

Share Capital

The Company's issued share capital consists of 68,883,472 Ordinary shares as at 30 June 2017, each with a nominal value of 10 pence, representing the Company's issued share capital. All shares have equal voting rights. The maximum number of Ordinary shares in issue during the year was 68,883,472.

During the year the Company purchased 975,419 Ordinary shares to be held in Treasury at a total cost of £2,118,000, representing 1.4% of the Ordinary shares in issue at the year end.

As at 30 June 2017 there were 975,419 shares held in Treasury.

Substantial shareholdings

The Company has been informed of the following notifiable interests in the voting rights of the Company as at 30 June 2017:

	Number of shares held	% of total voting rights
RIT Capital Partners plc	9,818,227	14.25
Brewin Dolphin	3,525,787	5.12
Arbuthnot Fund Managers	3,412,657	4.95
Ian Armitage	3,404,800	4.94
Schroders plc	3,111,987	4.52
Sir Clive Thompson	2,679,102	3.89

Subsequent to the year end, the Company was notified of the following changes to the above holdings:

On 10 July 2017, the Company was notified that Brewin Dolphin held 3,368,037 shares, representing 4.89% of voting rights then on 12 July, was notified that Brewin Dolphin held 3,718,437 shares representing 5.40% of voting rights.

Information About Securities Carrying Voting Rights

The following information is disclosed in accordance with the Large and Medium sized Companies and Groups (Accounts and Reports) Regulations 2008 and DTR 7.2.6 of the FCA's Disclosure and Transparency Rules:

- The Company's capital structure and voting rights are summarised above.
- Details of the substantial Shareholders in the Company are listed above.
- The rules concerning the appointment and replacement of Directors are contained in the Company's Articles of Association and are discussed on page 26.
- Details of the powers of the Directors to issue or buy-back the Company's shares are disclosed above and on page 22.
- There are no restrictions concerning the transfer of securities in the Company; no special rights with regard to control attached to securities; no agreements between holders of securities regarding their transfer known to the Company; and no agreements which the Company is party to that might affect its control following a successful takeover bid.
- There are no agreements between the Company and its Directors concerning compensation for loss of office.

Auditor

KPMG LLP have confirmed their willingness to continue in office as Auditor and a resolution proposing their appointment will be submitted at the forthcoming Annual General Meeting.

The Directors who held office at the date of approval of the Directors' Report confirm that, so far as they are aware, there is no relevant information of which the Auditor is unaware; and each Director has taken all the steps that he/she ought to have taken as a Director to make himself/herself aware of any relevant information and to establish that the Auditor is aware of that information.

Report of the Directors *(continued)*

Financial Risk Management

Information about the Company's financial risk management objectives and policies is set out in Note 17 of the financial statements on pages 55 to 58.

Requirements of the Listing Rules

Listing Rule 9.8.4 requires the Company to include specified information in a single identifiable section of the Annual Report or a cross reference table indicating where the information is set out. The Directors confirm that no disclosures are required in relation to Listing Rule 9.8.4.

Annual General Meeting

The Notice of the Annual General Meeting to be held on 8 November 2017, is set out on pages 61 to 64. Full details of all resolutions can be found in the Notice. The resolutions to be proposed as items of special business are set out below.

To continue the Company (Resolution 11)

The Board previously committed to providing Shareholders with an opportunity to vote annually on an ordinary resolution to continue the Company as an investment trust. The purpose of Resolution 11 is to satisfy that commitment.

To authorise the allotment of shares (Resolution 12)

Section 551 of the Companies Act 2006 provides that the Directors may not allot new shares without Shareholder approval. The purpose of Resolution 12, which is proposed as an ordinary resolution, is to empower the Directors to allot shares with an aggregate nominal value of up to £683,874, being approximately 10% of the Company's issued Ordinary share capital as at the latest practicable date prior to the publication of this document. The authority granted to the Directors if this Resolution 12 is passed would last until the earlier of the Annual General Meeting in 2018 or 8 February 2019.

To disapply Section 570 of the Companies Act 2006 (Resolution 13)

Under Section 570 of the Companies Act 2006, if the Directors wish to allot any equity securities, or sell any treasury shares (should they elect to hold any), for cash, they must first offer them to existing Shareholders in proportion to their shareholdings. The purpose of Resolution 13, which is proposed as a special resolution, is to allow the Directors to allot shares, or sell any treasury shares, for cash other than in accordance with Section 570 up to a maximum aggregate nominal amount of £683,874, representing approximately 10% of the Company's issued Ordinary share capital of 68,387,406 10p shares as at 13 September 2017 (being the latest practicable date prior to publication of this document).

Shares issued pursuant to this authority will be issued at a price of not less than the prevailing NAV per share, including current period revenue.

This authority will last until the earlier of the Annual General Meeting in 2018 or 8 February 2019.

To authorise the Company to purchase its own Ordinary shares (Resolution 14)

The purpose of Resolution 14, which is proposed as a special resolution, is to renew the authority of the Company to purchase its own shares. As stated in the prospectus issued by the Company in connection with its listing on the London Stock Exchange in July 2005, the Company may purchase shares in the market in order to address any imbalance between the supply of and demand for shares and to increase the net asset value per share. The Company will make such purchases pursuant to this authority only where the Directors believe that to do so will result in an increase in the NAV per share for remaining Shareholders and is in the best interests of Shareholders generally.

The authority is limited to 10,251,272 Ordinary shares, representing approximately 14.99% of the Company's shares in issue as at 13 September 2017 (being the latest practicable date prior to publication of this document).

The Company will only purchase Ordinary shares at prices which are below the last published NAV per Ordinary share. The maximum price (exclusive of expenses) payable per Ordinary share under this authority is the higher of (a) 5% over the average of the middle market prices of the Ordinary shares according to the Daily Official List of the London Stock Exchange for the five business days immediately before the date on which the Company agrees to buy the shares and (b) that stipulated by the regulatory technical standards adopted by the EU pursuant to the Market Abuse Regulation from time to time. The minimum price payable per Ordinary share under this authority is the nominal value of that Ordinary share. Any purchases of Ordinary shares made pursuant to this authority will be market purchases.

Any such purchases will be made during the period commencing at the close of the Annual General Meeting and ending on the earlier of the date of the Company's Annual General Meeting in 2018 or 8 May 2019.

The Company may purchase its own shares either for holding in treasury, or for subsequent cancellation. Shares held in treasury will have no voting, dividend or other rights. The Directors consider that the purchase of shares into treasury could be beneficial to Shareholders in the long term, in that, subject to the authority granted by Resolution 13, they may be re-sold at NAV or above to further the investment objectives of the Company.

As at 13 September 2017 (being the latest practicable date prior to publication of this document), the Company held 1,471,485 shares in treasury.

Directors' Recommendation

The Directors consider that all the resolutions to be proposed at the Annual General Meeting are in the best interests of the Company and its members as a whole. The Directors unanimously recommend that Shareholders vote in favour of all the resolutions, as they intend to do in respect of their own beneficial holdings.

On behalf of the Board

Richard Hills
Chairman
14 September 2017

Statement on Corporate Governance

This Corporate Governance Statement forms part of the Directors' Report.

Statement of Compliance with the AIC Code of Corporate Governance

The Company is committed to high standards of corporate governance. The Board is accountable to the Company's Shareholders for good corporate governance. This Statement describes how the principles of corporate governance are applied to the Company.

The Board has considered the principles and recommendations of the AIC Code of Corporate Governance ("AIC Code") by reference to the AIC Corporate Governance Guide for Investment Companies ("AIC Guide") published in July 2016, both of which can be found on the AIC website at www.theaic.co.uk. The AIC Code, as explained by the AIC Guide, addresses all the principles set out in the UK Corporate Governance Code ("UK Code") as well as setting out additional principles and recommendations on issues that are of specific relevance to investment companies.

The Board considers that reporting against the principles and recommendations of the AIC Code, and by reference to the AIC Guide (which incorporates the UK Code), will provide better information to Shareholders than if it had adopted the UK Code. A copy of the UK Code can be found at www.frc.org.uk.

The Company has complied throughout the year, and continues to comply, with the recommendations of the AIC Code and the relevant provisions of the UK Code, except as set out below.

The UK Code includes provisions relating to:

- The role of the chief executive
- Executive directors' remuneration
- The need for an internal audit function

For the reasons set out in the AIC Guide, and as explained in the UK Code, the Board considers these provisions are not relevant to the position of the Company, being an externally managed investment company. In particular, all of the Company's day-to-day management and administrative functions are outsourced to third parties. As a result, the Company has no executive directors, employees or internal operations. The Company has therefore not reported further in respect of these provisions.

The Company has complied with the recommendations of the AIC Code except the following:

- A full portfolio listing is not provided as in the opinion of the Directors it is not in the best commercial interests of the Company.
- Given the size and nature of the Board it is not deemed appropriate to appoint a senior independent director.
- Owing to the size and nature of the Company the Board does not believe it is necessary to have a separate Nomination Committee or Remuneration Committee.

Board of Directors

Under the leadership of the Chairman, the Board is responsible for all matters of control and direction of the Company, including its investment policy.

As at the date of this Report, the Board consists of five non-executive Directors. Biographical details of the Directors in office at the year end can be found on page 2.

The terms and conditions of the appointment of the non-executive Directors are formalised in letters of appointment, copies of which are available for inspection from the registered office of the Company and will be available at the Annual General Meeting.

The Board has agreed arrangements whereby Directors may take independent professional advice in the furtherance of their duties and the Company has Directors' and Officers' Liability Insurance to cover legal defence costs. Under the Company's Articles of Association, the Directors are provided, subject to the provisions of UK legislation, with an indemnity in respect of liabilities which they may sustain or incur in connection with their appointment. Apart from this, there are no third party indemnity provisions in place.

Board Operation

At the Board meetings, the Directors follow a formal agenda to review the Company's investments and all other important issues to ensure that control is maintained over the Company's affairs.

The Board is responsible for adherence to the investment policy and strategic and operational decisions of the Company. The Company's main functions are delegated to a number of service providers, each engaged under separate legal contracts. The management of the Company's portfolio is delegated to the Investment Manager, which has discretion to manage the assets in accordance with the Company's objectives and policies. A representative of the Investment Manager attends each Board meeting to present written and verbal reports on its activities and portfolio performance. At each Board meeting, the Directors review the Company's investments and all other important issues to ensure that control is maintained over the Company's affairs. The Board has adopted a formal schedule of matters specifically reserved for approval. These reserved matters include the following:

- Investment and business strategy of the Company.
- Annual and half-yearly reports and accounts and accounting policies, prospectuses, circulars and other shareholder communications.

- Acquisitions and disposals of interests of more than 29.9% in the voting shares of any investee company.
- Dividend policy.
- Board appointments and removals.
- Appointment and removal of the Company's service providers including the Investment Manager/AIFM, Depository and Auditor.

Members of the Board also meet with representatives of the Investment Manager on an informal and regular basis.

Meetings

The Directors meet at regular Board meetings, at least once every quarter, with additional meetings arranged as necessary. The number of scheduled Board, Audit and Management Engagement Committee meetings held during the year ended 30 June 2017 and the attendance of the individual Directors is shown below:

	Board meetings		Audit Committee meetings		Management Engagement Committee meetings	
	Number of meetings	Number attended	Number of meetings	Number attended	Number of meetings	Number attended
Richard Hills	4	4	2	2	1	1
Sir Clive Thompson	4	4	–	–	–	–
William Barlow	4	4	2	2	1	1
Josephine Dixon	4	4	2	2	1	1
Richard Locke	4	3	2	2	1	0

Statement on Corporate Governance *(continued)*

In addition to the scheduled meetings, a number of further Board and Audit Committee meetings were held during the year to consider specific matters.

Board Balance and Independence

All of the Directors of the Company are non-executive and, with the exception of Sir Clive Thompson, are independent of the Investment Manager. Sir Clive Thompson is deemed non-independent by virtue of his position on the Industry Advisory Panel (“IAP”) of the Investment Manager.

The Directors possess a wide range of financial, business and legal expertise relevant to the direction of the Company and consider that they commit sufficient time to the Company’s affairs.

Chairman

The Chairman, Mr Hills, is deemed by his fellow independent Board members to be independent and to have no conflicting relationships. He considers himself to have sufficient time to commit to the Company’s affairs.

Re-election and Retirement of Directors

A Director shall retire and be subject to election at the first Annual General Meeting after his or her appointment. Thereafter, the Directors offer themselves for annual re-election in conformity with good corporate governance.

The Board’s policy on tenure is that the maximum period that any Director shall serve as a director of the Company shall be limited and no Director shall be eligible to serve beyond the twelfth Annual General Meeting following his or her appointment. In the event that a Director is appointed at an Annual General Meeting, for these purposes that Annual General Meeting will not count towards the twelve.

Sir Clive Thompson had indicated that he would step down at the 2017 Annual General Meeting (“AGM”), being his twelfth AGM following his appointment. However, he has accepted the Board’s request to stay on for one more year. The Board will begin the recruitment process for Sir Clive’s replacement in the spring of 2018.

Directors’ Induction, Training and Development

Upon appointment to the Board, a new Director is provided with a detailed induction pack containing relevant information about the Company and their duties and responsibilities as a Director.

Directors’ training and development needs are reviewed by the Board on an annual basis as part of the performance evaluation process. The Board is committed to keeping up to date on matters

which are directly relevant to their duties and responsibilities to the Company. The Directors receive regular briefings and updates from the Company’s Investment Manager and other advisers on regulatory matters that may affect the Company.

Performance Evaluation

The Board’s decision to recommend the re-election of each of the Directors is informed by a formal assessment of each Director’s independence and contribution, and the balance of skills, experience, length of service and knowledge of the Company across the Board as a whole. This assessment is made annually as part of the Board’s appraisal of its collective performance and that of the Chairman, the Directors and the Committees, and the independent status of each individual Director and the Board as a whole. The evaluation of the Chairman is led by the Deputy Chairman.

In 2017, the evaluation of the Board was carried out by way of a questionnaire. Having considered and discussed the points raised by the Directors in response to the questionnaire, the Board has concluded that it has an appropriate balance of skills, experience and length of service and that each Director demonstrates effectiveness, a high level of commitment to the Company, and considerable experience, expertise and knowledge. In addition, the Board believes that, with the exception of Sir Clive Thompson (who is considered to be non-independent by virtue of his membership of the Investment Manager’s IAP), each Director is independent of judgement and that there are no relationships or circumstances which are likely to affect the judgement of any Director.

Accordingly, the Board recommends the re-election of each Director.

Committees of the Board

The Board has appointed three committees, to assist its operations. Each committee’s delegated responsibilities are clearly defined in formal terms of reference, which are available from the Company’s Registered Office. Miss Dixon chairs the Audit Committee and Mr Hills chairs the Management Engagement Committee and the Disclosure Committee. Each committee comprises all of the independent Directors of the Company.

Audit Committee

The main responsibilities of the Audit Committee and the matters addressed by the Committee during the year under review are detailed in the Audit Committee Report on pages 29 and 30.

Management Engagement Committee

The Management Engagement Committee is responsible for reviewing the performance of the Investment Manager and making recommendations to the Board about the continuing appointment of the Investment Manager. The Committee also reviews the Company's other service providers and meets periodically.

The Management Engagement Committee met once over the course of the year.

Disclosure Committee

Following the implementation of the Market Abuse Regulation ("MAR") in July 2016, the Board agreed to form a Disclosure Committee, comprising all Directors and chaired by Mr Hills, to ensure the identification of inside information and the Company's ongoing compliance with MAR. The Committee will meet on an ad hoc basis.

The Disclosure Committee did not meet during the year but has met on one occasion since the year end.

Remuneration Matters

The Board has resolved that, in view of the size of the Board, it is most appropriate for matters of remuneration to be dealt with by the Board as a whole.

Full details of the remuneration arrangements for Directors can be found in the Directors' Remuneration Report on pages 31 to 33.

Nomination Matters

The Board as a whole undertakes the role of the Nomination Committee.

Review of new Board appointments is a subject for the whole Board to monitor and consider, led by the independent Directors. The Board meets as and when required for this purpose.

Company Secretary

The Board has direct access to the advice and services of the Company Secretary which is responsible for ensuring that Board and Committee procedures are followed and that applicable regulations are complied with. The Company Secretary is also responsible to the Board for ensuring timely delivery of financial and other relevant information and reports and that statutory obligations of the Company are met.

Dialogue with Shareholders

Communication with Shareholders is given a high priority by both the Board and the Investment Manager. Shareholders can communicate with the Board by writing to the Company Secretary at the address disclosed on page 60. Major Shareholders of the Company are offered the opportunity to meet with the Investment Manager and the Directors in order to ensure that their views are understood. During the year under review, the Chairman met with a number of major Shareholders to solicit their views on the Company. All Shareholders are encouraged to attend and vote at the Annual General Meeting, during which the Board and the Investment Manager are available to discuss issues affecting the Company and Shareholders have the opportunity to address questions to the Investment Manager, the Board and the Chairman.

The half-yearly and annual reports are designed to present a full and readily understandable review of the Company's activities and performance. Copies are available from www.strategicequitycapital.com.

Conflicts of Interest

It is the responsibility of each individual Director to avoid an unauthorised conflict of interest situation arising. He or she must request authorisation from the Board as soon as he or she becomes aware of the possibility of an interest that conflicts or might possibly conflict with the interests of the Company (a "situational conflict"). The Company's Articles of Association authorise the Board to approve such situations, where deemed appropriate.

The Board is responsible for considering Directors' requests for authorisation of situational conflicts and for deciding whether or not the situational conflict should be authorised. The factors to be considered will include: whether the situational conflict could prevent the Director from properly performing his or her duties; whether it has, or could have, any impact on the Company; and whether it could be regarded as likely to affect the judgment and/or actions of the Director in question. When the Board is deciding whether to authorise a conflict or potential conflict, only Directors who have no interest in the matter being considered are able to take the relevant decision, and in taking the decision the Directors must act in a way they consider, in good faith, will be most likely to promote the Company's success. The Directors are able to impose limits or conditions when giving authorisation if they think this is appropriate in the circumstances.

A register of conflicts is maintained by the Company Secretary and is reviewed at Board meetings to ensure that any authorised conflicts remain appropriate. Directors are required to confirm at these meetings whether there has been any change to their position.

Statement on Corporate Governance *(continued)*

Internal Control Review

The Directors acknowledge that they are responsible for the Company's systems of internal control and for reviewing their effectiveness. An ongoing process, in accordance with the Financial Reporting Council's Guidance on Risk Management, Internal Control and Related Financial and Business Reporting, has been established for identifying, evaluating and managing the risks faced by the Company. This process is regularly reviewed by the Board. The risk management process and systems of internal control are designed to manage rather than eliminate the risk of failure to achieve the Company's objectives. It should be recognised that such systems can provide only reasonable, not absolute, assurance against material misstatement or loss.

Internal control assessment process

Risk assessment and the review of internal controls are undertaken by the Board in the context of the Company's overall investment objective. The review process, which has been in place for the year ended 30 June 2017 and up to the date of this report, covers the key business, operational, compliance and financial risks facing the Company. In arriving at its judgement of what risks the Company faces, the Board considers the Company's objectives in light of the following factors:

- the nature and extent of risks which it regards as acceptable for the Company to bear within its overall business objective;
- the threat of such risks becoming reality;
- the Company's ability to reduce the incidence and impact of risk on its performance; and
- the cost to the Company and benefits related to the Company and third parties of operating the relevant controls.

Against this backdrop, the Board has split the review into four sections reflecting the nature of the risks being addressed. The sections are as follows:

- corporate strategy;
- published information and compliance with laws and regulations;
- relationship with service providers; and
- investment and business activities.

Given the nature of the Company's activities and the fact that most functions are subcontracted, the Board has concluded that there is no need for the Company to have an internal audit function. Instead, the Directors obtain information from key

third party suppliers regarding the controls operated by them. To enable the Board to make an appropriate risk and control assessment, the information and assurances sought from third parties include the following:

- details of the control environment;
- identification and evaluation of risks and control objectives;
- assessment of the communication procedures; and
- assessment of the control procedures.

The key procedures which have been established to provide effective internal controls are as follows:

- investment management is provided by GVQIM. The Board is responsible for the implementation of the overall investment policy and monitors the action of the Investment Manager at regular meetings. The Audit Committee reviews compliance reports from the Investment Manager on a twice-yearly basis, and the Investment Manager's compliance officer is in attendance at these meetings;
- the provision of administration, accounting and company secretarial duties are the responsibility of PATAC Limited. The Audit Committee reviews the report on controls from PATAC Limited on an annual basis;
- Northern Trust Global Services Limited act as depository and custodian to the Company. The Audit Committee reviews Northern Trust's internal controls report on an annual basis;
- the duties of investment management, accounting and custody of assets are segregated. The procedures of the individual parties are designed to complement one another;
- the Directors of the Company clearly define the duties and responsibilities of their agents and advisers in the terms of their contracts. The appointment of agents and advisers is conducted by the Board after consideration of the quality of the parties involved; the Board monitors their ongoing performance and contractual agreements;
- mandates for authorisation of investment transactions and expense payments are set by the Board; and
- the Board reviews detailed financial information produced by the Investment Manager and the Company Secretary on a regular basis.

The Directors have carried out a review of the effectiveness of the systems of internal control as they have operated over the period and up to the date of approval of the report and financial statements. There were no matters arising from this review that required further investigation and no significant failings or weaknesses were identified.

Audit Committee Report

The Committee held two scheduled meetings during the year under review.

The Committee's main responsibilities are:

1. To review the half year and annual financial statements

The Committee considers whether the financial statements are fair, balanced and understandable.

In addition, consistency of accounting policies, key areas of judgement, the clarity of disclosure and compliance with accounting and listing requirements, the going concern assumption and the results of the audit are all covered in the work of the Committee.

2. To review the risk management and effectiveness of internal control policies and procedures of the Company and its service providers

The Committee reviews and considers the Company's statement on risk management and internal control systems included in the financial statements prior to endorsement by the Board.

3. In relation to the external auditor:

- to review and approve terms of the external auditor;
- meet with the external auditor to discuss the outcomes of their audit work;
- liaise with the auditor in respect of their planning of their work and engagement terms, including fees;
- review auditor independence;
- consider appropriateness and terms of any auditor appointment in respect of any non-audit work; and
- make recommendations to the Board relating to appointment and re-appointment.

4. Consider the need for an internal audit function

The Board has concluded that there is no need for an internal audit function due to the nature of the Company's activities and the fact that most functions are subcontracted.

The following matters were addressed by the Committee during the period under review.

Risk Management and Effectiveness of Internal Controls

The Committee conducted a robust review of the effectiveness of the Company's risk management and internal control systems in September 2017, as part of its consideration of the Annual Report and Financial Statements for the year ended 30 June 2017. The review included considering those risks that might threaten the Company's business model, future performance, solvency or liquidity.

During the year the Committee has considered the following:

- the appropriateness of the risk matrix of the Company;
- the reports on the effectiveness of internal controls and risk management systems of the principal service providers to the Company; and
- the quarterly reports from the Depository.

Following that process, the Committee then recommended to the Board the endorsement of the statement on internal control, as included in this Report on page 28.

Half Year and Annual Financial Statements

Both the Half-yearly Report for the period ended 31 December 2016 and the Annual Report for the year ended 30 June 2017 were reviewed in detail and in line with the Committee's responsibilities and formal recommendations were made to the Board for approval. The Committee also considered the following significant matters:

- the basis and reasonableness of the valuation of the Company's unquoted investment, Vintage 1;
- in discussion with the Auditor and the Investment Manager, the calculation of the investment management and performance fees payable to the Investment Manager;
- the prospects of the Company over the three year period agreed by the Board when assessing the long-term viability of the Company, and the appropriateness of the statement from the Directors, as included in this Annual Report; and

Statement on Corporate Governance *(continued)*

- the use of the going concern principle in the preparation of the financial statements for the year ended 30 June 2017. The Committee considered evidence supporting this principle and reviewed the statement on going concern for endorsement by the Board. This can be found on page 19.

Auditor

KPMG LLP were appointed as the Company's Auditor with effect from 17 February 2016 following an audit tender process in December 2015. The Audit Director rotates every five years in accordance with ethical guidelines and 2017 is the second year for the current director.

Independence and Objectivity of the Auditor

The Committee reviewed the independence and objectivity of KPMG LLP as the Auditor in September 2017. The Committee had no grounds to question the independence or objectivity of the audit firm, their director or management. The Committee also considered the performance of the Auditor by discussing separately amongst themselves the appropriateness of KPMG LLP's approach to the audit, by detailed discussion with them at the Audit Committee meeting in September 2017 of the quality of their report to the Company, and from their ability to assist the Committee in questions raised. The Committee was satisfied with the performance of the Auditor.

Audit Fees

The Audit Committee reviewed the audit plan and fees presented by the Auditor and considered their report on the annual financial statements at a meeting of the Committee attended by the Auditor. The fee for the audit of the Annual Report and Financial Statements for the year ended 30 June 2017 of £20,000 (excluding VAT) was considered and approved by the Committee for recommendation to the Board.

Re-appointment of the Auditor

Following this review, the Committee is satisfied with the performance of KPMG LLP and has no hesitation in recommending their appointment as statutory Auditor to the Company. A resolution to this effect will therefore be put to Shareholders at the forthcoming Annual General Meeting to be held on 8 November 2017.

Josephine Dixon
Audit Committee Chairman
14 September 2017

The Board has prepared this report in accordance with Schedule 8 of The Large and Medium-sized Companies and Groups (Accounts and Reports) Regulations 2008.

An ordinary resolution for the approval of this report will be put to Shareholders at the forthcoming Annual General Meeting.

The law requires the Company's Auditor to audit certain disclosures provided. Where disclosures have been audited, they are indicated as such. The Auditor's opinion is included in its report on pages 35 to 38.

Directors' Remuneration Report *Statement from the Chairman*

The Board presents the Directors' Remuneration Report for the year ended 30 June 2017, which has been prepared in accordance with the Companies Act 2006.

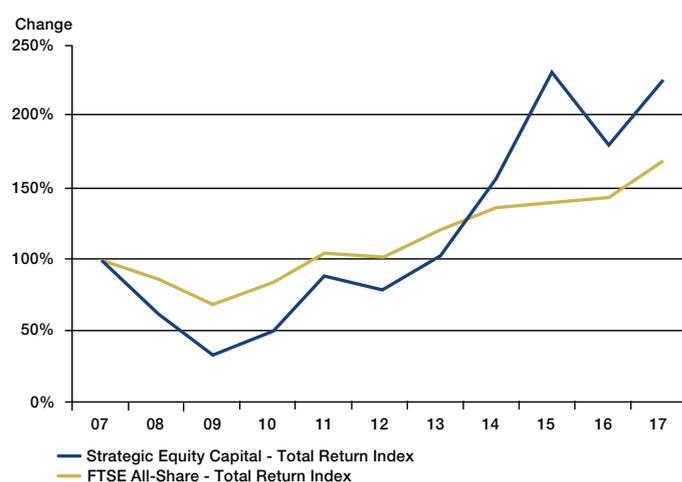

The Board has resolved that, in view of the size of the Board, it is most appropriate for matters of remuneration to be dealt with by the Board as a whole. The Remuneration Policy is set out on page 33.

During the year ended 30 June 2017, Directors' fees were set at a rate of £35,000 for the Chairman, £27,500 for the Chairman of the Audit Committee and £24,000 for a non-executive Director of the Company. Following a review of Directors' fees, no changes are currently being proposed.

There will be no significant change in the way the current approved Remuneration Policy will be implemented in the course of the next financial year.

Your Company's performance

The Company is required to include a performance graph in this report comparing the Company's total shareholder return performance against that of a broad equity market index. The Company is legally required to present a performance comparison. However, comparison against an index is not the objective of the Company. The following graph compares the total shareholder return to the total return on the FTSE All-Share Total Return Index. This index has been selected for comparison of the Company's performance for its generic qualities as no listed index directly comparable to the Company's portfolio exists.

Directors' emoluments for the year ended 30 June 2017 (audited)

The Directors who served in the year were paid the following emoluments in the form of fees:

	Year ended 30 June 2017 £	Year ended 30 June 2016 £
Richard Hills	35,000	35,000
William Barlow (appointed on 1 February 2016)	24,000	10,000
Josephine Dixon	27,500	27,500
Richard Locke	24,000	24,000
Sir Clive Thompson*	24,000	24,000
Ian Dighé (retired on 11 November 2015)	–	8,733
Total	134,500	129,233

* Sir Clive Thompson's Director's fees are paid to Storm Financial Limited.

Directors' Remuneration Report *(continued)*

Relative importance of spend on pay

The table below, which is a statutory requirement, sets out, in respect of the financial year ended 30 June 2017 and the preceding year:

- a) the remuneration paid to Directors; and
- b) the cash returned to Shareholders by way of dividend.

	Year ended 30 June 2017	Year ended 30 June 2016	Change
	£	£	
Total remuneration	134,500	129,233	4.1%
Dividend paid	545,000	534,000	2.1%

Directors' interests (audited)

There is no requirement under the Company's Articles of Association, or their terms of appointment, for Directors to hold shares in the Company.

The interests of the Directors and any connected persons in the Ordinary shares of the Company are set out below:

	30 June 2017	30 June 2016
Richard Hills	60,000	60,000
William Barlow	10,000	–
Josephine Dixon	10,000	10,000
Richard Locke*	30,000	20,000
Sir Clive Thompson	2,679,102	2,679,102

* This interest is held jointly by Mr Locke and Mrs Mary Locke.

There have been no changes to any of the above holdings between 30 June 2017 and the date of this report.

None of the Directors or any persons connected with them had a material interest in the Company's transactions, arrangements or agreements during the year.

Directors' service contracts

None of the Directors has a contract of service with the Company, nor has there been any contract or arrangement between the Company and any Director at any time during the year. The terms of their appointment provide that a Director shall retire and be subject to election at the first Annual General Meeting after their appointment, and every year thereafter. Directors are not entitled to any termination payments in relation to their appointment. The Directors have committed to standing for annual re-election in the interests of good corporate governance.

Approval of Directors' Remuneration Report and Directors' Remuneration Policy

The Directors' Remuneration Report for the year ended 30 June 2016 was approved by Shareholders at the Annual General Meeting held on 9 November 2016. The votes cast by proxy were as follows:

Directors' Remuneration Report	Number of votes	% of votes cast
For	17,712,908	99.82
Against	22,759	0.13
At Chairman's discretion	9,488	0.05
Total votes cast	17,745,155	100.00

Number of votes withheld Nil

The Directors' Remuneration Policy, which was approved by Shareholders at the Annual General Meeting held on 11 November 2015, will next be put to Shareholders at the Annual General Meeting in 2018. The votes cast by proxy on 11 November 2015 were as follows:

Directors' Remuneration Policy	Number of votes	% of votes cast
For	23,125,625	99.96
Against	10,000	0.04
At Chairman's discretion	–	0
Total votes cast	23,135,625	100.00

Number of votes withheld Nil

Directors' Remuneration Policy

A resolution to approve this Remuneration Policy was proposed at the Annual General Meeting of the Company held on 11 November 2015. The resolution was passed, and the Remuneration Policy provisions set out below will apply until they are next put to Shareholders for renewal of that approval. The Directors' Remuneration Policy will be put to Shareholders' vote at least once every three years and in any year if there is to be a change in the Directors' Remuneration Policy.

The Company follows the recommendation of the AIC Code that Directors' remuneration should reflect their duties, responsibilities and the value of their time spent on the Company's affairs. The Board's policy is that the remuneration of non-executive Directors should reflect the experience of the Board as a whole, be fair and comparable to that of other investment trusts that are similar in size, have a similar capital structure and have a similar investment objective.

Any views expressed by Shareholders on the fees being paid to Directors will be taken into consideration by the Board when reviewing the Directors' Remuneration Policy and in the annual review of Directors' fees.

The fees of the non-executive Directors are determined within the limits set out in the Company's Articles of Association. The Articles provide that the aggregate limit for Director's fees in any one year is £200,000. Approval by Shareholders would be required to increase that limit. The Directors are not eligible for bonuses, pension benefits, share options, long-term incentive schemes or other benefits as the Board does not consider it to be appropriate at this time. There are no performance conditions attached to the remuneration of the Directors as the Board does not consider such arrangements or benefits necessary or appropriate for non-executive directors.

	Expected fees for year to 30 June 2018 £	Fees for year to 30 June 2017 £
Chairman	35,000	35,000
Chairman of the Audit Committee	27,500	27,500
Non-executive Director	24,000	24,000
Total aggregate annual fees that can be paid to the Directors in any year under the Directors' Remuneration Policy, as set out in the Company's Articles of Association	200,000	200,000

It is intended that the Company's policy when determining the duration of notice periods and termination payments under the Directors' letters of appointment will be based on prevailing best practice guidelines. Under the Directors' letters of appointment, there is no notice period and no compensation is payable to a Director on leaving office.

Approval

The Directors' Remuneration Report was approved by the Board of Directors on 14 September 2017 and signed on its behalf by the Chairman.

Richard Hills
Chairman
14 September 2017

Statement of Directors' Responsibilities in respect of the Annual Report and the Financial Statements

The Directors are responsible for preparing the Annual Report and financial statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare financial statements for each financial year. Under that law they are required to prepare the financial statements in accordance with International Financial Reporting Standards as adopted by the European Union (IFRSs as adopted by the EU) and applicable law.

Under company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of its profit or loss for that period. In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable, relevant and reliable;
- state whether they have been prepared in accordance with IFRSs as adopted by the EU;
- assess the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that its financial statements comply with the Companies Act 2006. They are responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Company and to prevent and detect fraud and other irregularities.

Under applicable law and regulations, the Directors are also responsible for preparing a Strategic Report, Directors' Report, Directors' Remuneration Report and Corporate Governance Statement that complies with that law and those regulations.

The Directors are responsible for the maintenance and integrity of the corporate and financial information included on the company's website. Legislation in the UK governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Responsibility statement of the Directors in respect of the Annual Financial Report

We confirm that to the best of our knowledge:

- the financial statements, prepared in accordance with the applicable set of accounting standards, give a true and fair view of the assets, liabilities, financial position and profit or loss of the Company; and
- the Strategic Report includes a fair review of the development and performance of the business and the position of the issuer, together with a description of the principal risks and uncertainties that they face.

We consider the Annual Report and accounts, taken as a whole, is fair, balanced and understandable and provides the information necessary for shareholders to assess the Company's position and performance, business model and strategy.

Richard Hills
Chairman
14 September 2017

Independent auditor's report

to the members of Strategic Equity Capital plc

1. Our opinion is unmodified

We have audited the financial statements of Strategic Equity Capital plc ("the Company") for the year ended 30 June 2017 which comprise the Statement of Comprehensive Income, Statement of Changes in Equity, Balance Sheet, Statement of Cash Flows and the related notes, including the accounting policies in note 1.

In our opinion the financial statements:

- give a true and fair view of the state of Company's affairs as at 30 June 2017 and of its profit for the year then ended;
- have been properly prepared in accordance with International Financial Reporting Standards as adopted by the European Union; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities are described below. We believe that the audit evidence we have obtained is a sufficient and appropriate basis for our opinion. Our audit opinion is consistent with our report to the audit committee.

We were appointed as auditor by the Directors on 17 February 2016. The period of total uninterrupted engagement is the 2 years ended 30 June 2017. We have fulfilled our ethical responsibilities under, and we remain independent of the Company in accordance with, UK ethical requirements including the FRC Ethical Standard as applied to listed public interest entities. No non-audit services prohibited by that standard were provided.

Overview

Materiality: £1.79m (2016: £1.38m)
financial statements 1% (2016: 1%) of total assets as a whole

Risk of material misstatement vs 2016

Recurring risk	Carrying amount of quoted equity investments	◀▶
-----------------------	--	----

2. Key audit matters: our assessment of risks of material misstatement

Key audit matters are those matters that, in our professional judgment, were of most significance in the audit of the financial statements and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by us, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. We summarise below the key audit matter (unchanged from 2016), in arriving at our audit opinion above, together with our key audit procedures to address that matter and, as required for public interest entities, our results from those procedures. The matter was addressed, and our results are based on procedures undertaken, in the context of, and solely for the purpose of, our audit of the financial statements as a whole, and in forming our opinion thereon, and consequently are incidental to that opinion, and we do not provide a separate opinion on this matter.

	The risk	Our response
<p>Carrying amount of quoted equity investments (£161.6 million; 2016 : £123.5 million)</p> <p><i>Refer to page 29 (Audit Committee Report), page 43 (accounting policy) and pages 49 to 52 (financial disclosures)</i></p>	<p>Low risk, high value: The Company's portfolio of quoted equity investments makes up 90.2% of the Company's total assets (by value) and is considered to be the key driver of results. We do not consider these investments to be at a high risk of significant misstatement, or to be subject to a significant level of judgment because they comprise liquid, quoted investments. However, due to their materiality in the context of the financial statements as a whole, they are considered to be the area which had the greatest effect on our overall audit strategy and allocation of resources in planning and completing our audit.</p>	<p>Our procedures included:</p> <ul style="list-style-type: none"> – Tests of detail: Agreeing the valuation of 100 per cent of quoted equity investments in the portfolio to externally quoted prices; and – Enquiry of custodians: Agreeing 100 per cent of quoted equity investment holdings in the portfolio to independently received third party confirmations from investment custodians. <p>Our results</p> <ul style="list-style-type: none"> – We found the resulting carrying amount of quoted equity investments to be acceptable.

3. Our application of materiality and an overview of the scope of our audit

Materiality for the financial statements as a whole was set at £1.79m (2016: £1.38m), determined with reference to a benchmark of total assets, of which it represents 1% (2016: 1%).

We agreed to report to the Audit Committee any uncorrected identified misstatements exceeding £89,000 (2016: £70,000), in addition to other identified misstatements that warranted reporting on qualitative grounds.

Our audit of the Company was undertaken to the materiality level specified above and was performed at the administrator’s head office in Edinburgh.

4. We have nothing to report on going concern

We are required to report to you if:

- we have anything material to add or draw attention to in relation to the Directors’ statement in note 1.2 to the financial statements on the use of the going concern basis of accounting with no material uncertainties that may cast significant doubt over the Company’s use of that basis for a period of at least twelve months from the date of approval of the financial statements; or
- if the related statement under the Listing Rules set out on page 19 is materially inconsistent with our audit knowledge.

We have nothing to report in these respects.

5. We have nothing to report on the other information in the Annual Report

The Directors are responsible for the other information presented in the Annual Report together with the financial statements. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except as explicitly stated below, any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge. Based solely on that work we have not identified material misstatements in the other information.

Strategic report and Directors’ report

Based solely on our work on the other information:

- we have not identified material misstatements in the Strategic Report and the Directors’ report;
- in our opinion the information given in those reports for the financial year is consistent with the financial statements; and
- in our opinion those reports have been prepared in accordance with the Companies Act 2006.

Directors’ remuneration report

In our opinion the part of the Directors’ Remuneration Report to be audited has been properly prepared in accordance with the Companies Act 2006.

Disclosures of principal risks and longer-term viability

Based on the knowledge we acquired during our financial statements audit, we have nothing material to add or draw attention to in relation to:

- the Directors’ confirmation within the Viability Statement on page 19 that they have carried out a robust assessment of the principal risks facing the Company, including those that would threaten its business model, future performance, solvency and liquidity;
- the Principal Risks and Uncertainties disclosures describing these risks and explaining how they are being managed and mitigated; and

- the Directors’ explanation in the Viability Statement of how they have assessed the prospects of the Company, over what period they have done so and why they considered that period to be appropriate, and their statement as to whether they have a reasonable expectation that the Company will be able to continue in operation and meet its liabilities as they fall due over the period of their assessment, including any related disclosures drawing attention to any necessary qualifications or assumptions.

Under the Listing Rules we are required to review the Viability Statement. We have nothing to report in this respect.

Corporate governance disclosures

We are required to report to you if:

- we have identified material inconsistencies between the knowledge we acquired during our financial statements audit and the Directors’ statement that they consider that the Annual Report and financial statements taken as a whole is fair, balanced and understandable and provides the information necessary for shareholders to assess the Company’s position and performance, business model and strategy; or
- the section of the Annual Report describing the work of the Audit Committee does not appropriately address matters communicated by us to the Audit Committee.

We are required to report to you if the Corporate Governance Statement does not properly disclose a departure from the eleven provisions of the UK Corporate Governance Code specified by the Listing Rules for our review.

We have nothing to report in these respects.

6. We have nothing to report on the other matters on which we are required to report by exception

Under the Companies Act 2006, we are required to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements and the part of the Directors’ Remuneration Report to be audited are not in agreement with the accounting records and returns; or
- certain disclosures of directors’ remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

We have nothing to report in these respects.

7. Respective responsibilities

Directors’ responsibilities

As explained more fully in their statement set out on page 34, the Directors are responsible for: the preparation of the financial statements including being satisfied that they give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the Company’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor’s responsibilities

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud, other irregularities, or error, and to issue our opinion in an auditor’s report. Reasonable assurance is a high level of assurance, but does not guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud, other irregularities or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements. The risk of not detecting a material misstatement resulting from fraud or other irregularities is higher than for one resulting from error, as they may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control and may involve any area of law and regulation not just those directly affecting the financial statements.

A fuller description of our responsibilities is provided on the FRC’s website at www.frc.org.uk/auditorsresponsibilities.

8. The purpose of our audit work and to whom we owe our responsibilities

This report is made solely to the Company’s members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company’s members those matters we are required to state to them in an auditor’s report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company’s members, as a body, for our audit work, for this report, or for the opinions we have formed.

for the year ended 30 June 2017

1.1 Corporate information

Strategic Equity Capital plc is a public limited company incorporated and domiciled in the United Kingdom and registered in England and Wales under the Companies Act 2006 whose shares are publicly traded. The Company is an investment company as defined by Section 833 of the Companies Act 2006.

The Company carries on business as an investment trust within the meaning of Sections 1158/1159 of the UK Corporation Tax Act 2010.

The financial statements of Strategic Equity Capital plc for the year ended 30 June 2017 were authorised for issue in accordance with a resolution of the Directors on 14 September 2017.

1.2 Basis of preparation and statement of compliance

The financial statements of the Company have been prepared in accordance with IFRS issued by the International Accounting Standards Board (as adopted by the EU), interpretations issued by the International Financial Reporting Interpretations Committee, and applicable requirements of United Kingdom company law, and reflect the following policies which have been adopted and applied consistently. Where presentational guidance set out in the Statement of Recommended Practice ("SORP") for investment trusts issued by the AIC is applied to the extent it is consistent with the requirements of IFRS, the Directors have sought to prepare financial statements on a basis compliant with the recommendations of the SORP.

The financial statements of the Company have been prepared on a going concern basis, on the assumption the continuation vote is passed by Shareholders at the forthcoming Annual General Meeting.

Convention

The financial statements are presented in Sterling, being the currency of the Primary Economic Environment in which the Company operates, rounded to the nearest thousand, unless otherwise stated to the nearest one pound.

Segmental reporting

The Directors are of the opinion that the Company is engaged in a single segment of business, being investment business.

1.3 Accounting policies

Investments

All investments held by the Company are classified as "fair value through profit or loss". As the Company's business is investing in financial assets with a view to profiting from their total return in the form of interest, dividends or increase in fair value, listed equities, unquoted equities and fixed income securities are designated as fair value through profit or loss on initial recognition. The Company manages and evaluates the performance of these investments on a fair value basis in accordance with its investment strategy. Investments are initially recognised at cost, being the fair value of the consideration.

After initial recognition, investments are measured at fair value, with movements in fair value of investments and impairment of investments recognised in the Statement of Comprehensive Income and allocated to the capital column.

For investments actively traded in organised financial markets, fair value is generally determined by reference to Stock Exchange quoted market bid prices at the close of business on the Balance sheet date, without adjustment for transaction costs necessary to realise the asset.

In respect of unquoted instruments, or where the market for a financial instrument is not active, fair value is established by using recognised valuation methodologies, in accordance with International Private Equity and Venture Capital ("IPEV") Valuation Guidelines. New investments are initially carried at cost, for a limited period, being the price of the most recent investment in the investee company. This is in accordance with IPEV Guidelines as the cost of recent investments will generally provide a good indication of fair value. Fair value is the amount for which an asset could be exchanged between knowledgeable, willing parties in an arm's length transaction.

Notes to the Financial Statements *(continued)*

for the year ended 30 June 2017

1.3 Accounting policies *(continued)*

Trade date accounting

All “regular way” purchases and sales of financial assets are recognised on the “trade date” i.e. the day that the Company commits to purchase or sell the asset. Regular way purchases, or sales, are purchases or sales of financial assets that require delivery of the asset within a time frame generally established by regulation or convention in the market place.

Income

Dividends receivable on quoted equity shares are taken into account on the ex-dividend date. Where no ex-dividend date is quoted, they are brought into account when the Company’s right to receive payment is established. Other investment income and interest receivable are included in the financial statements on an accruals basis. Dividends receivable from UK and overseas registered companies are accounted for on a gross basis. Where withholding tax is paid, the amount will be recognised in the revenue column of the Statement of Comprehensive Income as part of the tax expense and deemed as irrecoverable. For dividends which are of a capital nature, they are recognised in the capital column of the Statement of Comprehensive Income. Income on fixed income securities is recognised on a time apportionment basis, using the effective interest rate method, from the date of purchase.

Expenses

All expenses are accounted for on an accruals basis. The Company’s investment management and administration fees, finance costs (calculated using the effective interest rate method) and all other expenses are charged through the Statement of Comprehensive Income. These expenses are allocated 100% to the revenue column of the Statement of Comprehensive Income. The Investment Manager’s performance fee is allocated 100% to the capital column of the Statement of Comprehensive Income. In the opinion of the Directors the fee is awarded entirely for the capital performance of the portfolio.

Cash and cash equivalents

Cash and cash equivalents which are held to maturity are carried at fair value. Cash and cash equivalents are defined as cash in hand, demand deposits and short-term, highly liquid investments readily convertible to known amounts of cash and subject to insignificant risk of changes in value. Bank overdrafts that are repayable on demand are included as a component of cash and cash equivalents for the purpose of the Statement of cash flows and Balance sheet.

Taxation

Income tax on the profit or loss for the year comprises current and deferred tax. Income tax is recognised in the Statement of Comprehensive Income except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the Balance sheet date, and any adjustment to tax payable in respect of previous years. The tax effect of different items of expenditure is allocated between the revenue and capital columns of the Statement of Comprehensive Income on the same basis as the particular item to which it relates, using the Company’s effective rate of tax.

Deferred income tax is provided on all temporary differences at the Balance sheet date between the tax basis of assets and liabilities and their carrying amount for financial reporting purposes. Deferred income tax liabilities are measured on an undiscounted basis at the tax rates that are expected to apply to the year when the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the Balance sheet date. Deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised.

Dividends payable to Shareholders

Dividends to Shareholders are recognised as a deduction from equity in the year in which they have been declared and approved by the shareholders. The final dividend is proposed by the Board and is not declared until approved by the Shareholders at the Annual General Meeting following the year end. Dividends are charged to the Statement of changes in equity.

1.3 Accounting policies *(continued)*

Share capital transactions

Share issues and related accounts

Incremental costs directly attributable to the issuance of shares are recognised as a deduction from share premium arising from the transactions.

Share buy-backs for capital reserve

When share capital is repurchased, the amount of the consideration paid is recognised as a deduction from special reserve.

Share buy-backs for treasury

Shares which are repurchased are either classified as treasury shares and are presented as a deduction from special reserve or are cancelled.

Foreign currency transactions

The currency of the Primary Economic Environment in which the Company operates is Sterling which is also the presentational currency. Transactions denominated in foreign currencies are translated into Sterling at the rates of exchange ruling at the date of the transaction.

Investments and other monetary assets and liabilities are converted to Sterling at the rates of exchange ruling at the Balance sheet date. Exchange gains and losses relating to investments and other monetary assets and liabilities are taken to the capital column of the Statement of Comprehensive Income.

Critical accounting estimates and assumptions

The preparation of financial statements requires the Company to make estimates and assumptions that affect items reported in the Balance sheet and Statement of Comprehensive Income at the date of the financial statements. Although the estimates are based on best knowledge of current facts, circumstances, and, to some extent, future events and actions, the Company's actual results may ultimately differ from those estimates, possibly significantly.

In respect of unquoted instruments, or where the market for a financial instrument is not active, fair value is established by using recognised valuation methodologies, in accordance with IPEV Valuation Guidelines. Fair value is the amount for which an asset could be exchanged between knowledgeable, willing parties in an arm's length transaction.

1.4 New standards and interpretations not applied

IASB and IFRIC have issued the following standards and interpretations which are not effective for the year ended 30 June 2017 and have not been applied in preparing these financial statements.

International Accounting Standards (IAS/IFRS)		Effective date*
IFRS 9	Financial Instruments	1 January 2018†
IFRS 15	Revenue from Contracts with Customers	1 January 2018†
IFRS 16	Leasing	1 January 2019

* Years beginning on or after.

† Early adoption permitted.

The Directors do not anticipate that the initial adoption of the above standards will have a material impact in the period of initial application.

Notes to the Financial Statements *(continued)*

for the year ended 30 June 2017

2 Income

	Year ended 30 June 2017			Year ended 30 June 2016		
	Revenue return £'000	Capital return £'000	Total £'000	Revenue return £'000	Capital return £'000	Total £'000
Income from investments:

3 Investment Manager's fee

	Year ended 30 June 2017			Year ended 30 June 2016		
	Revenue return £'000	Capital return £'000	Total £'000	Revenue return £'000	Capital return £'000	Total £'000
Management fee	1,418	–	1,418	1,419	–	1,419
Performance fee	–	1,856	1,856	–	–	–
	1,418	1,856	3,274	1,419	–	1,419

A basic management fee is payable to the Investment Manager at the lower of (i) the annual rate of 1.0% of the NAV of the Company or (ii) 1.0% per annum of the market capitalisation of the Company. The basic management fee accrues daily and is payable quarterly in arrears. The Investment Manager is also entitled to a performance fee, details of which are given in the Strategic Report on page 16.

4 Other expenses

	Year ended 30 June 2017			Year ended 30 June 2016		
	Revenue return £'000	Capital return £'000	Total £'000	Revenue return £'000	Capital return £'000	Total £'000

Audit services*	20	–	20	20	–	20
Previous Auditors' services*	–	–	–	2	–	2
Directors' remuneration	135	–	135	129	–	129
Other expenses	308	–	308	383	–	383
	583	–	583	632	–	632

All expenses include VAT where applicable, apart from audit services which is shown net.

* No non-audit fees were incurred during the year.

5 Taxation

	Year ended 30 June 2017			Year ended 30 June 2016		
	Revenue return £'000	Capital return £'000	Total £'000	Revenue return £'000	Capital return £'000	Total £'000
Corporation tax at 19.75% (2016: 20%)	–	–	–	–	–	–
Overseas dividend withholding tax*	75	–	75	48	–	48
	75	–	75	48	–	48

The Company is subject to corporation tax at 19.75%. As at 30 June 2017 the total current taxation charge in the Company's revenue account is lower than the standard rate of corporation tax in the UK. The differences are explained below:

* IFG Group withholding tax paid £74,603 (2016: £48,094).

Notes to the Financial Statements *(continued)*

for the year ended 30 June 2017

5 Taxation *(continued)*

	Year ended 30 June 2017			Year ended 30 June 2016		
	Revenue return £'000	Capital return £'000	Total £'000	Revenue return £'000	Capital return £'000	Total £'000
Net return on ordinary activities before taxation	990	39,731	40,721	350	(13,784)	(13,434)
Theoretical tax at UK corporation tax rate of 19.75% (2016: 20%)	195	7,847	8,042	70	(2,757)	(2,687)
Effects of:						
– UK dividends that are not taxable	(510)	–	(510)	(410)	–	(410)
– Overseas dividends that are not taxable	(75)	–	(75)	(52)	–	(52)
– Unrelieved expenses	390	–	390	392	–	392
– Overseas dividend withholding tax	75	–	75	48	–	48
– Non-taxable investment gains	–	(7,847)	(7,847)	–	2,757	2,757
	75	–	75	48	–	48

Factors that may affect future tax charges

At 30 June 2017, the Company had no unprovided deferred tax liabilities (2016: £nil). At that date, based on current estimates and including the accumulation of net allowable losses, the Company had unrelieved losses of £18,100,000 (2016: £16,135,000) that are available to offset future taxable revenue. A deferred tax asset of £3,620,000 (2016: £3,227,000) has not been recognised because the Company is not expected to generate sufficient taxable income in future periods in excess of the available deductible expenses and accordingly, the Company is unlikely to be able to reduce future tax liabilities through the use of existing surplus losses.

Deferred tax is not provided on capital gains and losses arising on the revaluation or disposal of investments because the Company meets (and intends to continue for the foreseeable future to meet) the conditions for approval as an Investment Trust company.

6 Dividends

Under the requirements of Sections 1158/1159 of the Corporation Tax Act 2010 no more than 15% of total income may be retained by the Company. These requirements are considered on the basis of dividends declared in respect of the financial year as shown below.

	30 June 2017 £'000	30 June 2016 £'000
Final dividend proposed of 0.78p (2016: 0.78p) per share	(533)	(545)

Dividends have been solely paid out of Revenue.

The following dividends were declared and paid by the Company in the financial year:

	30 June 2017 £'000	30 June 2016 £'000
Final dividend: 0.78p per share (2016: 0.78p)	545	534

7 Return per Ordinary share

	Year ended 30 June 2017			Year ended 30 June 2016

Foreign exchange losses on settlement at bank	(7)	(1)
Movement in investment holding gains	17,292	(23,517)
	41,587	(13,784)

The Company is required to classify fair value measurements using a fair value hierarchy that reflects the subjectivity of the inputs used in measuring the fair value of each asset. The fair value hierarchy has the following levels:

Investments whose values are based on quoted market prices in active markets are classified within level 1 and include active listed equities. The Company does not adjust the quoted price for these instruments.

8 Investments *(continued)*

The definition of level 1 inputs refers to 'active markets', which is a market in which transactions take place with sufficient frequency and volume for pricing information to be provided on an ongoing basis. Due to the liquidity levels of the markets in which the Company trades, whether transactions take place with sufficient frequency and volume is a matter of judgement, and depends on the specific facts and circumstances. The Manager has analysed trading volumes and frequency of the Company's portfolio and has determined these investments as level 1 of the hierarchy.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within level 2. As level 2 investments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information.

Level 3 instruments include private equity, as observable prices are not available for these securities the Company has used valuation techniques to derive the fair value. In respect of unquoted instruments, or where the market for a financial instrument is not active, fair value is established by using recognised valuation methodologies, in accordance with IPEV Valuation Guidelines.

Level 3 investments consist of an investment in a private equity fund of funds managed by 3i ('the Fund') and is valued at the Company's attributable proportion of the reported Fund Net Asset Value in accordance with the IPEV Valuation Guidelines. The Net Asset Value of the Fund is derived from the Fair Value of the underlying funds based on the most recent financial statements of the underlying funds adjusted for any subsequent cash movements to and from the underlying funds.

The underlying funds primarily invest in private companies which are recorded at cost or Fair Value derived from private equity valuation models and techniques. The main inputs into the valuation models of the underlying funds include industry performance, company performance, quality of management, the price of the most recent financing round or prospects for the next financing round, exit opportunities which are available, liquidity preference and net present value analysis.

The level in the fair value hierarchy within which the fair value measurement is categorised is determined on the basis of the lowest level input that is significant to the fair value of the investment.

The following table analyses within the fair value hierarchy the Company's financial assets and liabilities (by class) measured at fair value at 30 June 2017.

Financial instruments at fair value through profit and loss

	Level 1 £'000	Level 2 £'000	Level 3 £'000	Total £'000
30 June 2017				
Equity investments and limited partnership interests	161,579	–	1,352	162,931
Liquidity funds	–	15,443	–	15,443
Total	161,579	15,443	1,352	178,374
30 June 2016				
Equity investments and limited partnership interests	123,509	–	1,648	125,157
Liquidity funds	–	12,091	–	12,091
Total	123,509	12,091	1,648	137,248

There were no transfers between levels for the year ended 30 June 2017 (2016: none).

Notes to the Financial Statements *(continued)*

	13,303	2,588	15,891

15 Net asset value per Ordinary share

The net asset value per Ordinary share is based on net assets of £176,344,000 (2016: £138,361,000) and on 68,883,472 (2016: 69,858,891) Ordinary shares, being the number of shares in issue at the year end.

16 Capital commitments and contingent liabilities

The Company has a commitment to invest €1,560,000 (2016: €1,560,000) in Vintage 1, details of which are given in the Investment Management Report on page 10.

17 Analysis of financial assets and liabilities

The Company's financial instruments comprise securities, cash balances (including amounts held in liquidity funds) and debtors and creditors that arise from its operations, for example, in respect of sales and purchases awaiting settlement and debtors for accrued income.

The Company has little exposure to credit and cash flow risk. Credit risk is due to uncertainty in a counterparty's ability to meet its obligations. The Company has no exposure to debt purchases and ensures that cash at bank is held only with reputable banks with high quality external credit ratings. All the assets of the Company which are traded on listed exchanges are held by The Northern Trust Company, the Company's Custodian. Bankruptcy or insolvency of the Custodian may cause the Company's rights with respect to securities held by the Custodian to be delayed or limited. The Board reviews the Custodian's annual controls report and the Investment Manager's management of the relationship with the Custodian.

The Company invests in markets that operate DVP (Delivery versus Payment) settlement. The process of DVP mitigates the risk of losing the principal of a trade during the settlement process. The Manager continuously monitors dealing activity to ensure best execution, a process that involves measuring various indicators including the quality of trade settlement and incidence of failed trades. Counterparty lists are maintained and adjusted accordingly.

Due to timings of investment and distributions, at any one time the Company may hold significant amounts of surplus cash. Any funds in excess of those required to meet daily operational requirements are invested in Institutional Liquidity Funds. These are highly liquid assets that are redeemable on less than 24 hours notice. The Company only invests in funds that have an AAA rating and the funds' performance is monitored by the Investment Manager. As at 30 June 2017 the Company had £15,443,000 (2016: £12,091,000) invested in such funds. The maximum exposure to credit risk is £16,245,000 (2016: £13,659,000). There are no assets past due or impaired (2016: none).

The Company finances its operations through its issued capital and existing reserves.

The principal risks the Company faces in its investment portfolio management activities are:

- market price risk, i.e. the movements in value of investment holdings caused by factors other than interest rate movement;
- interest rate risk;
- liquidity risk; and
- foreign currency risk.

The Investment Manager's policies for managing these risks are summarised below and have been applied throughout the year:

Policy

(i) Market price risk

The Company's investment portfolio is exposed to market price fluctuations which are monitored by the Investment Manager.

Adherence to the investment objectives and the limits on investment set by the Company mitigates the risk of excessive exposure to any one particular type of security or issuer.

Notes to the Financial Statements *(continued)*

for the year ended 30 June 2017

17 Analysis of financial assets and liabilities *(continued)*

If the investment portfolio valuation fell by 20% from the 30 June 2017 valuation (2016: 20%), with all other variables held constant, there would have been a reduction of £32,586,000 (2016: £25,031,000) in the return after taxation and equity. An increase of 20% in the investment portfolio valuation would have had an equal and opposite effect on the return after taxation and equity. The calculations are based on the fair value of investments at 30 June 2017 and these may not be representative of the year as a whole.

(ii) Cash flow interest rate risk exposure

The Company's bank accounts earn interest at a variable rate which is subject to fluctuations in interest rates.

The Company holds cash in liquidity funds. Income from these funds is dependent on the performance of the funds, which is subject to fluctuations in interest rates (along with other factors).

If interest rates had reduced by 0.5% from those obtained at 30 June 2017 (2016: 0.5%), it would have the effect, with all other variables held constant, of reducing the net return after taxation and equity by £79,000 (2016: £67,000). If there had been an increase in interest rates of 0.5% there would have been an equal and opposite effect in the net return after taxation and equity. The calculations are based on the cash balances at 30 June 2017 and are not representative of the year as a whole.

Non-interest rate risk exposure

The remainder of the Company's portfolio and current assets and liabilities are not subject directly to interest rate risk (2016: same).

Details of the interest rate risk profile of the Company are shown in the following tables.

The interest rate risk profile of the Company's financial assets at 30 June 2017 was:

	Total £'000	No interest rate risk financial assets £'000	Cash flow interest rate risk financial assets £'000
Sterling			
Listed investments	161,579	161,579	–
Liquidity funds	15,443	–	15,443
Cash	448	–	448
Receivables*	326	326	–
Closing net funds	177,796	161,905	15,891
Euros			
Unquoted investments	1,352	1,352	–
	1,352	1,352	–
Total	179,148	163,257	15,891

* Receivables exclude prepayments which under IAS 32 are not classed as financial assets.

17 Analysis of financial assets and liabilities *(continued)*

The interest rate risk profile of the Company's financial assets at 30 June 2016 was:

	Total £'000	No interest rate risk financial assets £'000	Cash flow interest rate risk financial assets £'000
Sterling			
Listed investments	123,509	123,509	–
Liquidity funds	12,091	–	12,091
Cash	1,212	–	1,212
Receivables*	331	331	–
Closing net funds	137,143	123,840	13,303
Euros			
Unquoted investments	1,648	1,648	–
	1,648	1,648	–
Total	138,791	125,488	13,303

* Receivables exclude prepayments which under IAS 32 are not classed as financial assets.

The interest rate risk profile of the Company's financial liabilities at 30 June 2017 was:

	Total £'000	No interest rate risk financial assets £'000
Sterling		
Creditors	2,832	2,832

All amounts were due in three months or less for a consideration equal to the carrying value of the creditors shown above.

The interest rate risk profile of the Company's financial liabilities at 30 June 2016 was:

	Total £'000	No interest rate risk financial assets £'000
Sterling		
Creditors	455	455

All amounts were due in three months or less for a consideration equal to the carrying value of the creditors shown above.

Notes to the Financial Statements *(continued)*

for the year ended 30 June 2017

17 Analysis of financial assets and liabilities *(continued)*

(iii) Liquidity risk

The Investment Manager may invest on behalf of the Company in securities which are not readily tradable, which can lead to volatile share price movements. It may be difficult for the Company to sell such investments. Although the Company's AIM quoted investments and unquoted investments are less liquid than securities listed on the London Stock Exchange, the Board seeks to ensure that an appropriate proportion of the Company's investment portfolio is invested in cash and readily realisable investments, which are sufficient to meet any funding requirements that may arise.

(iv) Foreign currency risk

The Company invests in a private equity fund (Vintage 1) denominated in Euros and a dual listed Irish security (IFG Group), these are the only non-Sterling assets. The Company is, therefore, subject to foreign currency risk.

During the year the Sterling/Euro exchange rate fluctuated 8.86% between a low of 1.1054 on 13 October 2016 and a high of 1.2033 on 30 June 2016, before closing at 1.1396 on 30 June 2017 (2016: 1.2033).

If the Sterling/Euro exchange rate had weakened by 15% from that obtained at 30 June 2017 (2016: 15%), it would have the effect, with all other variables held constant, of increasing net profit and equity Shareholders' funds by £1,323,000 (2016: £1,481,000). An strengthening of 15% (2016: 15%) would have had an equal but opposite effect on the net profit and equity Shareholders' funds. The calculations are based on the value of the investment in Vintage 1 and IFG Group as at 30 June 2017 and this may not be representative of the year as a whole. The balance exposed to foreign currency risk is £7,495,000 (2016: £8,390,000).

Fair values of financial assets and financial liabilities

The carrying value of the financial assets and liabilities of the Company is equivalent to their fair value (2016: same).

Managing Capital

Capital structure

The Company is funded through Shareholders' equity and cash reserves. The Company's Articles of Association permit the Board to borrow up to 25% of the Company's net asset value at the time of borrowing. Capital is managed so as to maximise the return to Shareholders while maintaining an appropriate capital base to allow the Company to operate effectively in the marketplace and to sustain future development of the business. The Company pays such dividends as are required to maintain its investment trust status, and may also from time to time return capital to Shareholders through the purchase of its own shares at a discount to net asset value.

Capital requirement

The Company operates so as to qualify as a UK investment trust for UK tax purposes. Although no longer a requirement for obtaining and retaining investment trust status, it remains the Company's investment policy that the maximum investment in any single investee company will be no more than 15% of the Company's investments at the time of investment.

The Company's capital requirement is reviewed regularly by the Board.

18 Related party transactions and transactions with the Investment Manager

The Investment Manager may draw upon advice from the IAP of which Sir Clive Thompson, a Director of the Company, is a member. The IAP was established to provide advice to the Investment Manager in relation to the strategy, operations and management of potential investee companies.

The amounts payable to the Investment Manager are disclosed in Note 3 on page 46. The amount due to the Investment Manager for management fees at 30 June 2017 was £728,000 (2016: £350,000). The amount due to the Investment Manager for performance fees at 30 June 2017 was £1,856,000 (2016: £Nil).

Fees paid to Directors are disclosed in the Directors' Remuneration Report on page 31. Full details of Directors' interests are set out on page 32.

Alternative Investment Fund Managers Directive (“AIFMD”) Disclosures (Unaudited)

The Company’s AIFM is GVQIM.

In accordance with the AIFMD, information in relation to the Company’s leverage and the remuneration of the Company’s AIFM is required to be made available to investors. In accordance with the Directive, the AIFM’s remuneration policy and remuneration disclosures in respect of the year ended 31 December 2016 are available from GVQIM on request.

The Company’s maximum and actual leverage levels at 30 June 2017 are shown below:

Leverage Exposure	Gross Method	Commitment Method
Maximum limit	125%	125%
Actual	100%	100%

There have been no changes to the Company’s investor disclosure document in the year to 30 June 2017.

The investor disclosure document and all additional periodic disclosures required in accordance with the requirements of the FCA Rules implementing the AIFMD in the UK are made available on the Company’s website (www.strategiequitycapital.com).

This document is important and requires your immediate attention.

If you are in any doubt as to any aspect of the proposals referred to in this document or as to the action you should take, you should consult your stockbroker, bank manager, solicitor, accountant or other independent professional adviser authorised under the Financial Services and Markets Act 2000 (as amended) if you are resident in the United Kingdom or, if not, from another appropriately authorised independent professional adviser, without delay. If you have sold or transferred all of your ordinary shares in the capital of the Company and, as a result, no longer hold any ordinary shares in the Company, please send this document and the accompanying form of proxy as soon as possible to the purchaser or transferee, or to the person through whom the sale or transfer was effected for transmission to the purchaser or transferee. If you have sold only part of your holding of ordinary shares in the Company, you should retain the documents and consult the person through whom the sale was effected.

Notice of Annual General Meeting

Notice is hereby given that the Annual General Meeting of Strategic Equity Capital plc will be held at the offices of Canaccord Genuity Limited, 88 Wood Street, London EC2V 7QR on 8 November 2017 at 12 noon for the following purposes:

Ordinary Business

1. To receive and adopt the audited Financial Statements for the year ended 30 June 2017, together with the Strategic Report and Reports of the Directors and Auditor thereon.
2. To declare a final dividend of 0.78p per Ordinary share.
3. To receive and approve the Directors' Remuneration Report.
4. To re-elect Richard Hills as a Director.
5. To re-elect Josephine Dixon as a Director.
6. To re-elect Sir Clive Thompson as a Director.
7. To re-elect Richard Locke as a Director.
8. To re-elect William Barlow as a Director.
9. To appoint KPMG LLP as Auditor to the Company, to hold office from the conclusion of this Meeting until the next General Meeting at which financial statements are laid.
10. To authorise the Directors to determine the remuneration of KPMG LLP.

Special Business

Ordinary Resolutions

11. THAT the Company continue as an investment trust until the conclusion of the next Annual General Meeting of the Company.
12. THAT in addition to any existing authority, the Board be and it is hereby generally and unconditionally authorised to exercise all powers of the Company to allot equity securities (within the meaning of Section 560 of the Companies Act 2006) up to an aggregate nominal amount of £683,874 (equivalent to 6,838,740 shares and 10% of the issued share capital as at 13 September 2017), which authority shall expire on the earlier of the conclusion of the next Annual General Meeting of the Company after the passing of this resolution and 8 February 2019 (unless previously revoked or varied by the Company in General Meeting) save that the Company may before such expiry make an offer or agreement which would or might require equity securities to be allotted after such expiry and the Board may allot equity securities in pursuance of such an offer or agreement as if the authority conferred hereby had not expired.

Notice of Annual General Meeting *(continued)*

Special Resolutions

13. THAT in addition to any existing authority, the Board be and it is hereby empowered, pursuant to Section 570 of the Companies Act 2006, to allot equity securities (within the meaning of Section 560 of the said Act) for cash pursuant to the authority conferred by resolution 12 above and/or where such allotment constitutes an allotment of equity securities by virtue of Section 573 of the said Act, as if Section 561 of the said Act did not apply to any such allotment, provided that this power shall be limited to the allotment of equity securities or sale of shares out of treasury up to an aggregate nominal value of £683,874 (equivalent to 6,838,740 shares and 10% of the issued share capital as at 13 September 2017), and shall expire on the earlier of the conclusion of the next Annual General Meeting of the Company after the passing of this resolution and 9 February 2018, save that the Company may before such expiry make an offer or agreement which would or might require equity securities to be allotted or sold after such expiry and the Board may allot or sell equity securities in pursuance of such an offer or agreement as if the power conferred hereby had not expired.
14. THAT, in substitution for the Company's existing authority, the Company be and is hereby authorised in accordance with Section 701 of the Companies Act 2006 (the "Act") to make market purchases (within the meaning of Section 693 of the Act) of its Ordinary shares of 10p each ("Ordinary Shares") provided that:
- (i) the maximum number of Ordinary Shares hereby authorised to be purchased shall not exceed 10,251,272 Ordinary Shares (being 14.99% of the Company's issued ordinary share capital as at 13 September 2017 (being the latest practicable date prior to the date of this notice) excluding any Ordinary Shares held in treasury);
 - (ii) the minimum price which may be paid for an Ordinary Share shall be not less than the nominal amount of such Ordinary Share at the time of purchase; and
 - (iii) the maximum price (exclusive of expenses) which may be paid for an Ordinary Share shall be the higher of (a) 5% above the average of the middle market prices of the Ordinary Shares according to the Daily Official List of the London Stock Exchange for the five business days immediately before the date on which the Company agrees to buy the Ordinary Shares, and (b) that stipulated by the regulatory technical standards adopted by the EU pursuant to the Market Abuse Regulation from time to time.

This authority shall continue for the period ending on the earlier of: (i) the date on which the maximum number of Ordinary Shares authorised to be purchased pursuant to this resolution 14 have been purchased by the Company; (ii) the date of the next Annual General Meeting of the Company after the passing of this resolution; and (iii) 8 May 2019 provided that if the Company has agreed, before this authority expires, to purchase Ordinary Shares where the purchase will or may be executed after this authority expires (whether wholly or in part), the Company may complete such purchase as if this authority has not expired.

Registered Office:

By Order of the Board

c/o Stephenson Harwood LLP
1 Finsbury Circus
London EC2M 7SH

PATAC Limited
Company Secretary
14 September 2017

Notes:

As a shareholder, you have the right to attend, speak and vote at the forthcoming Annual General Meeting or at any adjournment(s) thereof. In order to exercise all or any of these rights, you should read the following explanatory notes to the business of the Annual General Meeting.

1. The Company specifies that only those Shareholders registered on the register of members of the Company as at close of business on 6 November 2017 (or in the event that the meeting is adjourned, only those Shareholders registered on the register of members of the Company as at 6.00 pm on the day which is 48 hours prior to the adjourned meeting) shall be entitled to attend in person or by proxy and vote at the Annual General Meeting in respect of the number of shares registered in their name at that time. Changes to entries on the register of members after that time shall be disregarded in determining the rights of any person to attend or vote at the meeting.
2. A member entitled to attend and vote at this meeting may appoint one or more persons as his/her proxy to attend, speak and vote on his/her behalf at the meeting. A proxy need not be a member of the Company. If multiple proxies are appointed they must not be appointed in respect of the same shares. To be effective, the enclosed form of proxy, together with any power of attorney or other authority under which it is signed or a certified copy thereof, should be lodged at the office of the Company's Registrar, Computershare Investor Services PLC, The Pavilions, Bridgwater Road, Bristol BS99 6ZY not later than 48 hours before the time of the meeting.

The appointment of a proxy will not prevent a member from attending the meeting and voting in person if he/she so wishes. A member present in person or by proxy shall have one vote on a show of hands and on a poll every member present in person or by proxy shall have one vote for every share of which he/she is the holder.

The termination of the authority of a person to act as proxy must be notified to the Company in writing. In the case of joint holders of a share, the vote of the senior who tenders a vote, whether in person or by proxy, shall be accepted to the exclusion of the vote or votes of the other joint holder or holders, and seniority shall be determined by the order in which the names of the holders stand in the register.

Any question relevant to the business of the Annual General Meeting may be asked at the meeting by anyone permitted to speak at the meeting. You may alternatively submit your question in advance by letter addressed to the Company Secretary at the registered office.

3. A person to whom this notice is sent who is a person nominated under Section 146 of the Companies Act 2006 to enjoy information rights (a "Nominated Person") may, under an agreement between him/her and the shareholder by whom he/she was nominated, have a right to be appointed (or to have someone else appointed) as a proxy for the Annual General Meeting. If a Nominated Person has no such proxy appointment right or does not wish to exercise it, he/she may, under any such agreement, have a right to give instructions to the shareholder as to the exercise of voting rights.
4. The statements of the rights of members in relation to the appointment of proxies in Note 2 above do not apply to a Nominated Person. The rights described in this Note can only be exercised by registered members of the Company.
5. As at 13 September 2017 (being the last business day prior to the publication of this notice) the Company's issued share capital amounted to 68,387,406 Ordinary shares carrying one vote each and the total number of voting rights was 68,387,406.
6. A person authorised by a corporation is entitled to exercise (on behalf of the corporation) the same powers as the corporation could exercise if it were an individual member of the Company. On a vote on a resolution on a show of hands, each authorised person has the same voting rights as the corporation would be entitled to. On a vote on a resolution on a poll, if more than one authorised person purports to exercise a power in respect of the same shares:
 - a) if they purport to exercise the power in the same way as each other, the power is treated as exercised in that way;
 - b) if they do not purport to exercise the power in the same way as each other, the power is treated as not exercised.
7. Shareholders should note that it is possible that, pursuant to requests made by Shareholders of the Company under Section 527 of the Companies Act 2006, the Company may be required to publish on a website a statement setting out any matter relating to:
 - (i) the audit of the Company's accounts (including the Auditor's report and the conduct of the audit) that are to be laid before the Annual General Meeting; or
 - (ii) any circumstances connected with an auditor of the Company ceasing to hold office since the previous meeting at which annual accounts and reports were laid in accordance with Section 437 of the Companies Act 2006.

The Company may not require the Shareholders requesting any such website publication to pay its expenses in complying with Sections 527 or 528 of the Companies Act 2006. Where the Company is required to place a statement on a website under Section 527 of the Companies Act 2006, it must forward the statement to the Company's Auditor not later than the time when it makes the statement available on the website. The business which may be dealt with at the Annual General Meeting includes any statement that the Company has been required under Section 527 of the Companies Act 2006 to publish on a website.

Notice of Annual General Meeting *(continued)*

-
8. In accordance with Section 319A of the Companies Act 2006, the Company must cause any question relating to the business being dealt with at the meeting put by a member attending the meeting to be answered. No such answer need be given if:
- a) to do so would:
 - (i) interfere unduly with the preparation for the meeting, or
 - (ii) involve the disclosure of confidential information;
 - b) the answer has already been given on a website in the form of an answer to a question; or
 - c) it is undesirable in the interests of the Company or the good order of the meeting that the question be answered.

9. CREST members who wish to appoint a proxy or proxies by utilising the CREST electronic proxy appointment service may do so for this meeting by following the procedures described in the CREST Manual. CREST personal members or other CREST sponsored members, and those CREST members who have appointed a voting service provider(s), should refer to their CREST sponsor or voting service provider(s), who will be able to take the appropriate action on their behalf.

In order for a proxy appointment or instruction made by means of CREST to be valid, the appropriate CREST message (a “CREST Proxy Instruction”) must be properly authenticated in accordance with Euroclear’s specifications and must contain the information required for such instructions, as described in the CREST Manual. The message, in order to be valid, must be transmitted so as to be received by the Company’s agent ID 3RA50 by the latest time for receipt of proxy appointments specified in Note 2 above.

For this purpose, the time of receipt will be taken to be the time (as determined by the timestamp applied to the message by the CREST Applications Host) from which the Company’s agent is able to retrieve the message by enquiry to CREST in the manner prescribed by CREST. After this time, any change of instructions to proxies appointed through CREST should be communicated to the appointee through other means.

CREST members and, where applicable, their CREST sponsors or voting service providers should note that Euroclear does not make available special procedures in CREST for any particular messages. Normal system timings and limitations will therefore apply in relation to the input of CREST Proxy Instructions.

It is the responsibility of the CREST member concerned to take (or, if the CREST member is a CREST personal member or sponsored member or has appointed a voting service provider(s), to procure that his CREST sponsor or voting service provider(s) take(s)) such action as shall be necessary to ensure that a message is transmitted by means of the CREST system by any particular time. In this connection, CREST members and, where applicable, their CREST sponsors or voting service providers are referred, in particular, to those sections of the CREST Manual concerning practical limitations of the CREST system and timings.

The Company may treat as invalid a CREST Proxy Instruction in the circumstances set out in Regulation 35(5) (a) of the Uncertificated Securities Regulations 2001.

10. Members satisfying the thresholds in section 338 of the Companies Act 2006 may require the Company to give, to members of the Company entitled to receive notice of the Annual General Meeting, notice of a resolution which those members intend to move (and which may properly be moved) at the Annual General Meeting. A resolution may properly be moved at the Annual General Meeting unless (i) it would, if passed, be ineffective (whether by reason of any inconsistency with any enactment or the Company’s constitution or otherwise); (ii) it is defamatory of any person; or (iii) it is frivolous or vexatious. A request made pursuant to this right may be in hard copy or electronic form, must identify the resolution of which notice is to be given, must be authenticated by the person(s) making it and must be received by the Company not later than six weeks before the date of the Annual General Meeting.
11. Members satisfying the thresholds in section 338A of the Companies Act 2006 may request the Company to include in the business to be dealt with at the Annual General Meeting any matter (other than a proposed resolution) which may properly be included in the business at the Annual General Meeting. A matter may properly be included in the business at the Annual General Meeting unless (i) it is defamatory of any person or (ii) it is frivolous or vexatious. A request made pursuant to this right may be in hard copy or electronic form, must identify grounds for the request, must be authenticated by the person(s) making it and must be received by the Company not later than six weeks before the date of the Annual General Meeting.
12. The Annual Report incorporating this Notice of Annual General Meeting and, if applicable, any members’ statements, members’ resolutions or members’ matters of business received by the Company after the dates of this Notice will be available on the Company’s website, www.strategiequitycapital.com
13. None of the Directors has a contract of service with the Company. A copy of the letters of appointment of the Directors will be available for inspection at the registered office of the Company during usual business hours on any weekday (except weekends and public holidays) until the date of the meeting and at the place of the meeting for a period of fifteen minutes prior to and during the meeting.
