

Strategic Equity Capital

Q1 Update 2018

Fund objective

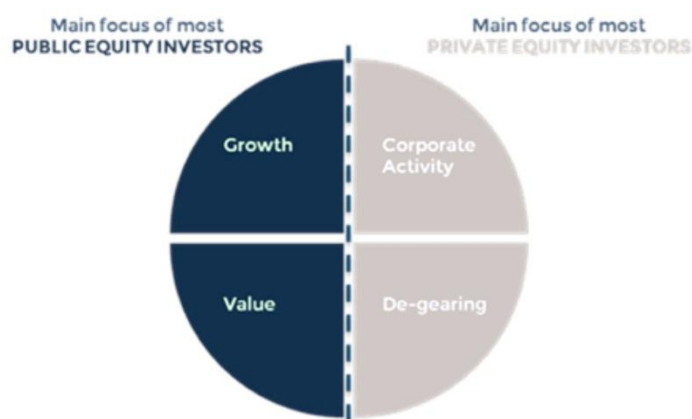

Strategic Equity Capital plc (“SEC” or “Trust”) is a London-listed investment trust investing predominately in small cap UK equities. The Trust is not constrained by market indices and aims to maximise returns for investors over the medium term.

Investment Strategy:

The Investment Manager, GVQ Investment Management Limited (“GVQIM”) employs a strategy to invest predominantly in publicly quoted companies which can create value through strategic, operational and management change. GVQIM follows a practice of constructive corporate engagement and aims to work with management teams in order to enhance shareholder value. Established in 2002, GVQIM believes it is one of the leading investors in this field.

Key Investment features:

We aim to combine the best elements of public and private equity investing as described in the chart below:

Investment Approach:

Before investing we undertake an extensive due diligence process, assessing market conditions, management and stakeholders. Our investments are underpinned by valuations, which we derive using private equity-based techniques, including a focus on cash flows, the potential value of the company to trade or financial buyers and the capital structure.

We typically aim to hold companies for the duration of rolling three-year investment plans that include an entry and exit strategy and a clearly identified route to value creation.

During our investment holding periods, we engage constructively with portfolio companies. The primary objective of this engagement is to promote further value creation for all investors. However, we will vigorously defend the interests of our investors if we believe they risk being threatened. Our engagement is undertaken in private and involves discussions and submission of written commentary and proprietary analysis to portfolio company managers, their advisers and, where required, other shareholders.

The majority of the investments by value will be typically invested in up to 25 smaller companies in the AIM & FTSE Small Cap indices.

RISK CONSIDERATIONS

You should remember that the value of investments, and the income from them, may go down as well as up, and is not guaranteed, and investors may not get back the amount of money invested. Past performance cannot be relied on as a guide to future performance. Exchange rate changes may cause the value of overseas investments or investments denominated in different currencies to rise or fall

In addition, there is no guarantee that the market price of shares will fully reflect their underlying net asset value and it is not uncommon for the market price of such shares to trade at a substantial discount to their net asset value

These are not all the risks of an investment in Strategic Equity Capital Plc shares. Investors should take advice from their own independent, professional financial advisers before making an investment decision and are responsible for ascertaining any income tax or other tax consequences which may affect their acquisition of any investment
