Q4 Factsheet – 31 December 2021

Since 1857
Gresham House
Specialist asset management

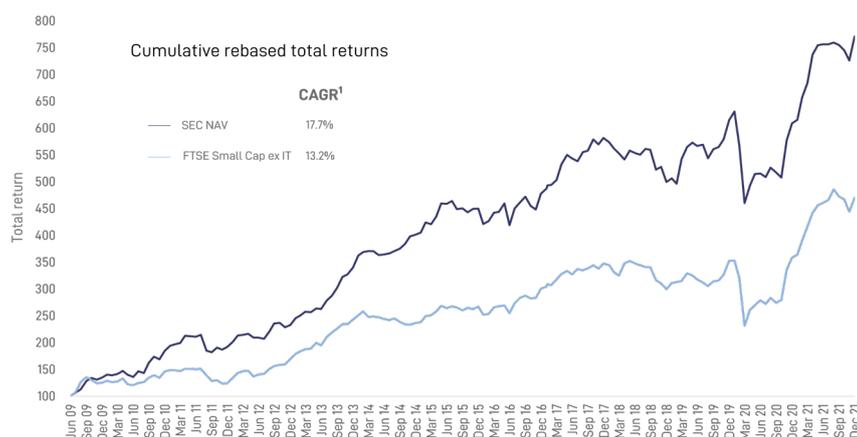

Fund objective

Strategic Equity Capital plc (SEC or Trust) is a London-listed investment trust investing predominately in small cap UK equities. The Trust is not constrained by market indices and aims to maximise returns for investors over the medium term.

Investment strategy

The Investment Manager, Gresham House Asset Management Limited employs a strategy to invest predominantly in publicly quoted companies which can create value through strategic, operational and management change - applying private equity style techniques to public companies. The process is based on private equity disciplines including a team approach and an Investment Committee that includes experienced executives and practitioners of public and private market investing. We aim for significant engagement with investee company stakeholders in support of a clear equity value creation plan over the long term.

Investment philosophy

Investment process

Before investing we undertake an extensive due diligence process, assessing market conditions, management and stakeholders. Our investments are underpinned by valuations, which we derive using private equity-based techniques, including a focus on cash flows, the potential value of the company to trade or financial buyers and the capital structure.

We typically aim to hold companies for the duration of our rolling three-year investment plans that include an entry and exit strategy and a clearly identified route to value creation.

During our investment holding periods, we engage constructively with portfolio companies. The primary objective of this engagement is to promote further value creation for all investors. However, we will vigorously defend the interests of our investors if we believe their risk being threatened. Our engagement is undertaken in private and involves discussions and submission of written commentary and proprietary analysis to portfolio company managers, their advisers and, where required, other shareholders.

The Trust will invest in up to 25 smaller companies in the FTSE Small Cap and AIM indices, with the majority of the portfolio by value typically invested in 10-15 holdings.
