### Investment performance

In the three months to 30 June 2023, the Company's underlying NAV per share increased by 1.0%. Over the quarter, the unquoted portfolio valuation remained flat and the quoted portfolio (including the LF Gresham House UK Micro Cap Fund, LF Gresham House UK Multi Cap Income Fund and LF Gresham House UK Smaller Companies Fund) increased by 3.0%.

Concerns about the rate of inflation and the cost of living crisis prevailed during the period under review. However, the quoted portfolio delivered positive investment returns despite the generally negative UK equity market performance. In the unquoted portfolio, company performance and valuations were largely stable. However, one company went into administration in the quarter, Rezatec. This though, was offset by realisations and earn-out proceeds from Key Travel, Evotix and Pho.

### Intention to fundraise

On 5 September 2023, Baronsmead Venture Trust plc and Baronsmead Second Venture Trust plc announced that they intend to launch offers for subscription (the "Offers") in the current 2023/24 tax year. Full details of the Offers will be contained in a prospectus that is expected to be published by the end of 2023. Further announcements will be made in due course about the timing and availability of the prospectus.

### Performance summary

These total returns are stated before the inclusion of VCT tax reliefs which are designed to mitigate the higher risks and costs associated with investing in smaller companies and the constraints of VCT legislation. The tax reliefs given at the time of subscription have varied between 20% and 40%, so any adjusted performance measure including this relief will vary depending on the date of subscription. There is the additional benefit of receiving VCT dividends tax free.
