# Gresham House Global Small Company Fund

January 2026

The Gresham House Global Small Company Fund (the Fund) is a concentrated equity fund which invests in small-cap stocks globally. The Fund targets long-established, well-managed, high-quality, cash-generative companies capable of delivering above average growth over time and whose prospects are undervalued by the market.

We seek companies which have a proven competitive advantage or offer a unique value proposition to customers. Such qualities tend to be illustrated by strong returns on capital, and strong cash generation.

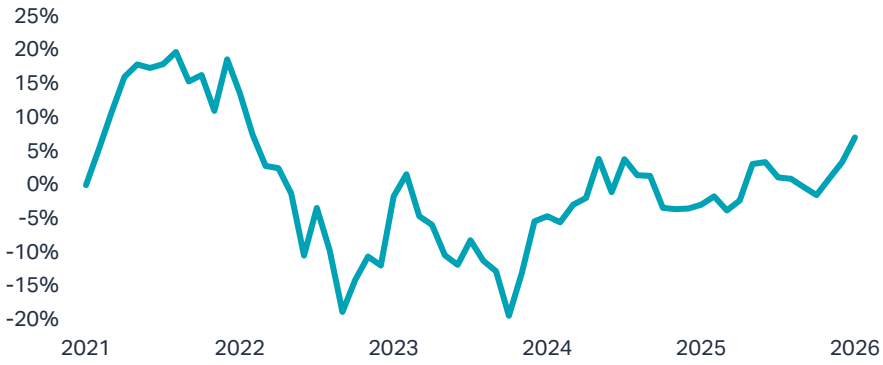

## Fund objective

The investment objective of the Fund is to achieve long-term capital appreciation.

The Fund seeks to achieve its investment objective by investing on a diversified basis in the equity and equity related securities of small capitalisation companies and in open-ended collective investment schemes with similar exposure and with no particular focus on any one country or industry sector.
